College Prep

This program includes advanced coursework in literature, mathematics, foreign language, humanities, and the sciences which prepares students for high school Advanced Placement (AP) courses and college-level work.

Margate Middle School

Dual Enrollment

Students take college courses through Broward College, providing opportunities to engage in rigorous curriculum that integrates core academics necessary for a four-year degree, while completing their high school diploma.

Coral Springs High School

Flanagan Innovation Zone University

This program provides accelerated coursework from elementary to high school. Students participate in dual enrollment courses for college credit.

Charles W. Flanagan High School
Lakeside Elementary School
Walter C. Young Middle School

International Baccalaureate Primary Years Program

This program is aimed at kindergarten through fifth grade and focuses on themes such as: who we are and where we are in place and time.

Annabel C Perry Pre K-8

International Baccalaureate Middle Years Program

This internationally recognized course offers students a well-rounded education based on higher level thinking skills. Students become self-directed learners and world citizens.

New Renaissance Middle School
Annabel C. Perry Pre K-8

Mustang University

Program gives students the opportunity to work toward and obtain an Associate of Arts college degree in a major of their choice, while simultaneously working on their high school diploma.

McArthur High School

Pre-Advanced Placement Reading Research Program

This program allows students to investigate needs at community, national and global levels to create real-world learning through reading research.

Silver Trail Middle School

Pre-AP/ College Academy/Collegiate Academy 6-12

Students can take high school level courses in middle school which includes algebra, geometry, and biology.

Millennium Middle School

Quantum Leap Program

This program academically pushes students so they can move into Advanced Placement (AP) coursework, honors and dual enrollment.

Coral Park Elementary School
Coral Springs High School
Forest Glen Middle School
Forest Hills Elementary School
James S. Hunt Elementary School
Park Springs Elementary School

BUSINESS & TECHNICAL

Career Technology Education Pathway University Program

Students have the opportunity to earn industry certifications, knowledge and skills for the 21st century workplace through technical career pathways that incorporates project-based learning. In addition, college prep pathways allow students the opportunity to take advanced coursework leading to post-secondary options.

Plantation High School

Fire Academy

This three-year program provides a unique opportunity for 10th grade students interested in becoming a firefighter or a paramedic. Students are taught by certified firefighters.

Coral Springs High School
Everglades High School

Health & Wellness

This program focuses on improving student achievement and guiding students to healthy living and fitness. This innovative program integrates fitness, nutrition, wellness, and environmental topics into core curriculum subjects.

Thurgood Marshall Elementary School

International Business, Entrepreneurial, Language, & Leadership Academy (IBELLA)

This program offers international business and cultural opportunities for students to enhance their learning and understanding of the world.

Plantation Middle School

Sports Medicine

Students engage in hands-on experiments, university level research, clinical observations, and Advanced Placement (AP) level coursework.

Everglades High School

Wall to Wall Academy

This program aims to increase student's high school and post high school success by catering to each student's academic and career goals. Students will choose their Academic Pathway and follow a prescribed set of core and academic courses aligned with their academy's theme.

Piper High School

COMMUNICATIONS/ LANGUAGES

Dual Language Program

The program develops bilingual, biliterate, and multicultural competencies, so students become fully bilingual by learning in English and a targeted language of Spanish or French. Visit browardschools.com/duallanguage for more details.

Boulevard Heights Elementary School
Eagle Point Elementary School
Sawgrass Elementary School

GOVERNMENT & INTERNATIONAL AFFAIRS

FBI Academy

This program gives an inside look at the FBI and builds understanding of law enforcement.

Everglades High School

PERFORMING & VISUAL ARTS

Fine Arts Initiative

This program develops student creativity and innovative critical thinking skills. The program can boost student achievement, improve behavior, and prepare students for college and careers.

Marjory Stoneman Douglas High School
Westglades Middle School

PATH to Success

Performing Arts Theatrics (PATH) to Success program prides itself on integrating the performing arts into students' regular curriculum. Students participate in fine arts, music, and dance programs that perform regularly for the community. The school's unique approach to the arts fosters creativity in all students.

Coral Cove Elementary School

Performing Arts Academy

This program is for students who desire to enhance their academic, intellectual and philosophical development through the systematic study of music, dance, theater and video production.

New Renaissance Middle School

Turnaround Arts

The Turnaround Arts initiative is a public-private partnership designed to increase student engagement and academic achievement through the arts. Performing and visual arts are integrated into core subjects to increase student's love for learning.

Lake Forest Elementary School

SCIENCE, TECHNOLOGY, ENGINEERING & MATH (STEM-Related)

Aeronautical Sciences

Students research and explore the concepts needed to develop a colony in space, another planet, or to become an astronaut.

Apollo Middle School
West Hollywood Elementary School

Compass Project-Based Learning

This program connects common core standards through project-based learning in a multi-age community.

Parkside Elementary School

Engineering and Environmental Science

Students learn the engineering process and apply that process to real-world experiences.

Crystal Lake Middle School

Environmental Science

Students explore and evaluate the many challenges and concerns related to their environment.

Sawgrass Springs Middle School

K – 12 STEM Zone

Program utilizing a curriculum that is driven by problem-solving, discovery, and exploratory learning. Students actively engage together in Science, Technology, Engineering, and Mathematics.

Colbert Elementary School
Gulfstream Academy of Hallandale Beach K-8
Hallandale High School
Lake Forest Elementary School
McNicol Middle School
Watkins Elementary School

Lighting STEM Academy

This program is designed to foster and develop student interest in science, technology, engineering and mathematics. It will require students to complete courses which emphasize the skills needed to succeed in STEM majors in college and STEM careers after college. In addition, students will also earn a Cambridge Advanced International Certificate of Education (AICE) diploma.

Cypress Bay High School

Project RED (Rigorous Engineering Design)

This program is for high achieving students with an interest in the field of engineering and is available by application only. Students wishing to apply must complete Algebra 1 prior to ninth grade and must have a minimum middle school grade point average of 3.0. Students must also earn a level 3 or higher on the reading portion of the FSA.

Everglades High School

RhinoFabStudio

The RhinoFabStudio allows schools to teach, learn and share different methods of fabrication for industrial designers, architects, and engineers.

Gulfstream Academy of Hallandale Beach K-8

Science, Technology, Arts, and Mathematics Preparatory (STAMP)

Incorporates a type of education focused on content learning, values of honor, leadership, commitment, self-discipline, and respect exemplified by the military.

Village Elementary School

Science, Technology, Engineering, and Mathematics

This program uses a project-based learning approach. Students gain the ability to collaborate in teams, produce solutions to complex problems, and critique the value of each other's work.

Manatee Bay Elementary School

Science, Technology, Reading, Engineering, Arts, and Mathematics (STREAM)

Expose high achieving students to a hands-on program that will further challenge their abilities and skills needed to become successful in a changing world.

Park Lakes Elementary School

Science, Technology, Engineering, Arts, and Mathematics Zone

The program focuses on a holistic approach which includes a rigorous curriculum incorporating direct instruction, project-based learning, problem and inquiry-based learning, scientific methodology in daily instruction, as well as multi-level performance and recitals.

Maplewood Elementary School
Ramblewood Middle School
Sheridan Hills Elementary School
Sheridan Park Elementary School
J.P. Taravella High School

Science, Technology, Engineering, and Mathematics Academy

This STEM Academy has two academic tracks: Biotechnology and Engineering.

Western High School

Science, Technology, Engineering, and Mathematics Academy

Focuses on student-centered learning that motivates students; provides a rigorous and technologically enhanced curriculum; and inspires creative and critical thinking.

Lloyd Estates Elementary School

Technology Infused Projects-Sunshine State

Focuses on Florida themed lessons across the curriculum. Students experience project-based learning to develop higher order thinking, problem solving, collaboration, and communication skills.

Orange Brook Elementary School

Technology, Inquiry, Global-Thinking Environmental Research Social-Intelligence (TIGERS)

Provides students with character education focusing on social environmental and technological sciences.

Norcrest Elementary School
