

Scholarship Data Guidelines:

This is the 2019-20 Broward Graduation Senior Survey question:

Add Scholarships that you received and are planning on using. List the **TOTAL** value for the Scholarship. Example: if you are getting a scholarship for \$1000 for **4 years**, then your TOTAL value of the scholarship is \$4000. Do **NOT** include Bright Futures Scholarships here. There is a separate question for that scholarship. For the dollar amount, **enter the amount WITHOUT any commas or periods.** The correct way to enter sixteen thousand dollars is 16000.

Students should not include these:

- FAFSA- This is not a scholarship
- Bright Futures – The district will pull all Bright Futures data.
- Unused Scholarships **

**Example: Received a FSU scholarship but will be attending USF. Received NAVY scholarship but will be attending Broward College.

Scholarships students report in Naviance will automatically populate in their senior survey.

Student Action:

A student must change/update their Naviance account if they were awarded the scholarship or not.

Below is a helpful email to send to all 12th grade students:

List all scholarships awarded that you are accepting and submit verification of each award.

Scholarship Name	Total Dollar Value
A. _____	\$ _____
B. _____	\$ _____
C. _____	\$ _____
D. _____	\$ _____

District Action:

The district will send every school their scholarship data to go over and fix.

Senior survey will close June 1st.
