

TIPS FOR ENTERING SCHOLARSHIPS INTO YOUR BROWARD GRADUATION SURVEY:

We want to make sure that your award data is accurate. Please take a moment to review these guidelines.

- Enter only scholarships that you have been **awarded** and are **planning to use**.
Example 1: You will definitely attend FSU but were offered merit money from USF. Do not enter the USF money offered, since you will not use it.
Example 2: Scholarships from organizations, churches, temples, employers, colleges/universities, athletic departments.
- **DO NOT enter scholarships that you have applied for and are waiting to hear about.** Scholarships received later can be added! Ask your BRACE Advisor to reopen your survey for editing.
- Enter the **total dollar amount** of each scholarship **without dollar signs, commas or periods!**
Example: Enter sixteen thousand dollars as 16000 (not \$16,000).
- Is the scholarship a **one-time award** or is it **renewable**? List the **TOTAL VALUE** for each scholarship that you have been awarded.
Example 1: If you were awarded a \$1000 scholarship that is renewable for 4 years, enter the TOTAL scholarship as 4000 ($1000 \times 4 = 4000$).
Example 2: If you were awarded a \$1000 scholarship that cannot be renewed, enter 1000.
- Please **DO NOT** include Bright Futures Scholarships in this section. You should have already entered it in Question #11 in the survey.
- Please **do not enter Pell Grants, Federal Work-Study or Loans**. This money is financial aid, not scholarships.
