Awarding grades for the June 2020 series

## A summary guide for teachers and students

STEP 1

Teachers use evidence and judgement to grade every student entered in each syllabus in their centre, to produce **predicted grades**

Example A Level syllabus:

GRADE	NO. OF PUPILS
A*	
A	
B	
C	
D	
E	
UNGRADED	
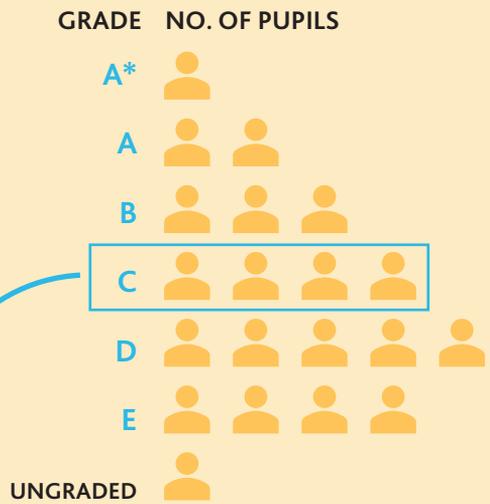

STEP 2

Teachers rank students based on expected attainment within each grade in each syllabus

GRADE   NO. OF PUPILS (RANKED)

C   1   2   3   4

HIGHEST ATTAINING → LOWEST ATTAINING
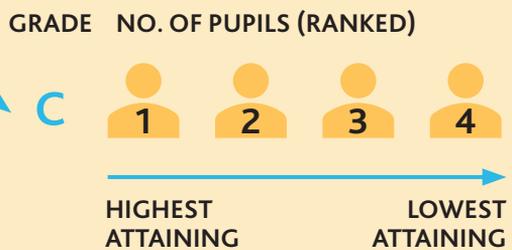

STEP 3

Head of centre confirms **predicted grades** and **rank orders** for each syllabus and sends to Cambridge International

STEP 4

Cambridge International carries out a standardisation process, combining data from the centre with other data, and awards final grades
