## TIPS FOR TESTING SEASON

As we near the end of the year, we have many end-of-year tests occurring in the different grade levels. Please see below for tips to ensure your child has a positive testing day. Also please see the second page for a reminder of the testing days.

Sleep is very important. Make sure bedtime routines and times are consistent on testing weeks. Limit TV time and video games close to bed if possible.

Having a balanced breakfast is important. This can occur at home before coming or students can get the school breakfast if they arrive on time.

Do your best to be on time. We don't want students to feel rushed or stressed getting to school. In most cases, test preparation starts right away at 8 am.

Remain positive when speaking about the testing. Assure your child that they just need to try their best. Try to avoid talking about the test in a way that would cause your child to get stressed.

## PTA Corner

Please don't forget to order yearbooks and yearbook ads if you are interested. Head over to the PTA website to purchase those or to buy some Country Isles t-shirts to get ready for next school year!
