

Dear Families,

Students will be taking the i-Ready Diagnostic for reading and math in September. Based on grade levels, students will take the diagnostic between September 8<sup>th</sup> and September 25<sup>th</sup>.

### Here's how you can help!

- ✚ Prepare a quiet space for your child, like the one they use for school.
- ✚ Make sure they have paper and pencil to work out math problems and take notes.
- ✚ Make sure the computer they use has audio—Headphones work best!
- ✚ Encourage them to try their best and work independently!

# Dear Families,

Your child's teachers need to know what our students already know and what they still need to learn so we can plan how to teach them best. The *i-Ready Diagnostic* can help us get this information for each child, but only if students give it their best effort without anyone else helping with the answers.

*Here's how you can help:*

1

## Watch this [video](#)

to familiarize yourself with the Diagnostic and how to best support your child.

2

## Get organized

by finding a quiet space for your student to take the test and confirming your technology is working properly.

3

## Motivate your child

by explaining how doing their best will help their teachers know how to teach them better.

4

## Support, but DO NOT help

by encouraging your child to stay focused and try their best and NOT helping them with the answers.

5

## Celebrate your child's effort

once you have confirmed they have completed the assessment.

# Checklist for Administering the *i-Ready Diagnostic* at Home

For Families

Your school has asked that your child complete the *i-Ready Diagnostic* at home. This is a different type of assessment. It is important that you do not help your child with understanding or answering questions. Your child *will* benefit from your support and encouragement to ensure the information received accurately reflects what they know and still need to learn. Here is a checklist that can help.

## Familiarize Yourself

- Watch this [video](#) to familiarize yourself with the Diagnostic and how to best support your child.

## Get Organized

<https://i-readycentral.com/view-resource/?id=35541>

- Find a quiet space for your student to take the Diagnostic.
- Determine a time for your student to take the Diagnostic. Keep the following in mind:
  - Your child's teacher may assign a time OR you will be asked to determine a time on your own. If choosing a time on your own:
    - The Diagnostic is untimed. We suggest splitting the assessment into several short sessions: 15 to 20 minutes for younger students (K-1) and 30 minutes for older students.
    - We recommend working early in the day when possible.
- Ensure you have correct login information from the student's teacher.
- Test the device(s) your child will use to take the Diagnostic. Run our [system check](#) to confirm computers are functioning properly. Consult this [guide](#) if you need help logging in. Confirm headphones and audio are working.
- Gather paper and pencils for your child to use during the Diagnostic.

## Prepare and Motivate Your Child

- Explain to your child:
  - Why they are taking this Diagnostic, and motivate them to do their best
  - How the Diagnostic works
  - That you cannot help them with any question

## Support Your Child

- Monitor and encourage your child as they complete the Diagnostic. Use the key phrases on the next page for supportive prompts you can use with your child throughout the assessment.
- Do not assist your child with answering assessment questions, as this may lead to the online lessons not being at the right level for your child or may lead to their teacher receiving inaccurate information.

## Confirm Completion

- Ensure your child has fully completed the assessment. Your child will receive a congratulatory message and see lessons appear on their screen. Make sure your student logs off the *i-Ready* account after completing the assessment. If problems arise, reach out to your student's teacher for support.

# Diagnostic at Home: Supportive Phrases to Use with Students

<p><b>Before the assessment</b></p>	<ul style="list-style-type: none"> <li>• “The Diagnostic helps you find out what you know, understand what you are ready to learn, and will help you get ‘just right’ lessons.”</li> <li>• “Try your best and do not rush, but do not spend too much time on a question.”</li> <li>• “Remember, the Diagnostic is adaptive. This means the questions change based on your answer to earlier questions. You will see some questions you don’t know. That is okay! Just try your best.”</li> <li>• <b>For Mathematics:</b> “Use your scratch paper to show your work on each question.”</li> <li>• <b>For Reading:</b> “Read each passage carefully.”</li> </ul>
<p><b>Throughout the assessment</b> (every 8–10 minutes)</p>	<ul style="list-style-type: none"> <li>• “I can tell you are very focused. Keep up the good work!”</li> <li>• “Great work, you have [number] minutes left.”</li> <li>• “Nice job showing your work/reading each passage carefully.”</li> </ul>
<p><b>When a student is rushing</b></p>	<ul style="list-style-type: none"> <li>• “I noticed you seem to be clicking through quickly. Remember, take your time and try your best.”</li> </ul>
<p><b>When a student is moving too slow</b></p>	<ul style="list-style-type: none"> <li>• “It seems like you are stuck on this one problem. It’s okay if you do not know the answer. Make your best guess and move to the next question.”</li> </ul>
<p><b>When a student is starting to feel frustrated, mad, upset, etc.</b></p>	<ul style="list-style-type: none"> <li>• “Wow. That looks like a very advanced question! That likely means you have been answering a lot of questions correctly. Don’t get [frustrated, mad, upset, etc.]. Make your best guess so the assessment can find your ‘just right’ level.”</li> <li>• “Let’s take a quick break! Do you want to finish this question now or when you get back?”</li> </ul>
<p><b>When a student asks for help</b></p>	<ul style="list-style-type: none"> <li>• “Just like when you take the test at school, I can’t help you find the answer. We want to find out what you know, not what I know. It’s okay if you are stuck!” Use the following suggestions:             <ul style="list-style-type: none"> <li>– <b>For Mathematics:</b> “Try working out the problem on paper.”</li> <li>– <b>For Reading:</b> “Try going back and rereading the text.”</li> <li>– “Try using a strategy that worked in a similar question before.”</li> <li>– “It’s okay if you don’t know it. You are going to get some challenging questions, which means you are answering a lot of questions correctly. Make your best guess and move on to the next question!”</li> </ul> </li> </ul>
<p><b>After the assessment</b></p>	<ul style="list-style-type: none"> <li>• “I’m really proud of you. You did a great job [taking your time, showing your work, persisting through challenging questions, etc.]”</li> </ul>
