Summit Event session description & speaker bios at bit.ly/BrowardYCS23Canvas

For our future

Mission: To convene, engage, connect, and empower young people for action on climate change in South Florida through the Youth Climate Summit and other leadership opportunities, and to create a climate literate generation who:

- Understands the essential principles of climate science
- Communicates about climate and climate change in a meaningful way
- Makes informed and responsible decisions regarding actions that may affect climate
- Takes action on promoting and implementing climate change adaptation and resilience measures in their homes, schools, and communities.
