

The following chart contains online resources for students specifically aimed at providing assistance with preparation for the SAT and ACT college entrance exams. All of the resources listed are free for student use and can be accessed from school or home. Contained within these sites are study guides, practice tests, tutorials, detailed lessons, videos, and college planning tools. This is in no way a definitive list of resources for the SAT and ACT exams, but should serve as a strong starting point for students seeking additional assistance with preparation for these important assessments.
