

AP Environmental Science Summer Assignment

Before you come back in August, please get out into nature and have an environmental experience. Walk in a park, pick up some trash, visit the Everglades and go on an airboat tour, take a trip to the beach, go kayaking in the Keys, hike in the mountains, plant a tree, reduce/reuse/recycle, watch a sunrise/sunset, etc. Get in touch with Mother Nature. Come back in August refreshed and renewed and ready to get to work. I look forward to hearing about your experiences. Have a good summer!
