# AP CAPSTONE PROGRAM

## A BOLD NEW PARTNERSHIP

COLLEGE BOARD • CORAL GLADES HIGH SCHOOL • COLLEGE BOARD • CORAL GLADES HIGH SCHOOL

The **AP Capstone Program** was developed following feedback from higher education organizations requesting that high school students develop stronger backgrounds in independent research, collaborative teamwork, and 21st-century knowledge and skills now essential for success on college campuses and in today's global marketplace.

Earning the AP Capstone Diploma will give you new ways to stand out in your college application. The Capstone program has been endorsed by such prestigious schools as Carnegie Mellon University, University of Florida, FSU, Clemson and Amherst, just to name a few.

# INTERDISCIPLINARY LEARNING & GLOBAL AWARENESS

## Seminar Course:

### Content

The seminar course takes key themes of global relevance and encourages you to explore them in an open and critical way. You'll evaluate these topics through multiple thematic lenses.

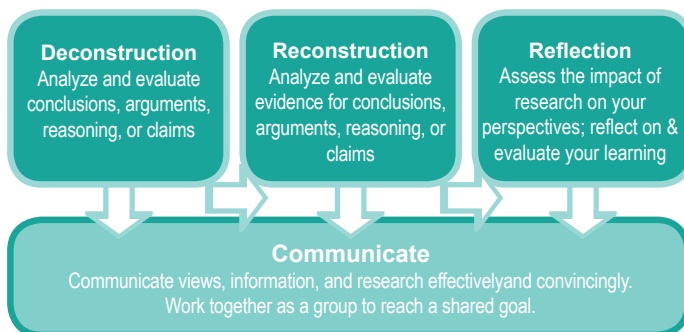

### Sample Topics:

Discovery  
Diversity  
Education  
Government  
Identity  
Immigration  
Liberty  
Myth  
Networks  
Perception  
Place  
Power  
Revolution  
Selection  
Sustainability  
Transformation  
Wealth and Poverty

### HOW THE AP CAPSTONE WORKS:

**9TH THROUGH 12TH GRADES:** Four or more AP courses and exams, including one “anchor” AP course in the 10th grade that connects all components of the program. The AP Capstone Program requires both the Seminar and Research course along with four additional AP Courses in order to complete the program.

## Research Course:

The Research Project, offered in the 11th grade, is a mentored research experience. The Research Project builds on an AP and/or Seminar subject and is based on a question or hypothesis you develop. The course is designed to help you develop practical skills in research methodology and skills to manage a sustained piece of academic work. The Project culminates in the submission of a 4,500-5,000 word paper.

The assessment of the Research Project evaluates your ability to design, plan, and manage a research project; to collect and analyze information; to evaluate and make reasoned judgments; and to communicate findings and conclusions.
