

Did You Know...

...that if a student is awarded a Cambridge Diploma he or she is guaranteed the highest Bright Futures academic scholarship, regardless of his or her GPA and ACT/SAT scores!

In addition to AICE courses, students can continue to earn regular, honors, Advanced Placement and Dual Enrollment courses.

You can view the colleges and universities that have provided written statements of their AICE recognition policy at:

www.cie.ork.uk/qualifications/recognition

Cambridge Exams

Exams are offered in November, May, and June. They may also occur after our school year calendar ends (through the third week of June) or during holidays. Cambridge includes AS and A level examinations. Advanced Subsidiary (AS) level syllabuses and examinations cover 1 credit and Advanced Level (A) covers 2 credits toward the AICE Diploma.

Coral Glades High School Cambridge International Program

How to Apply

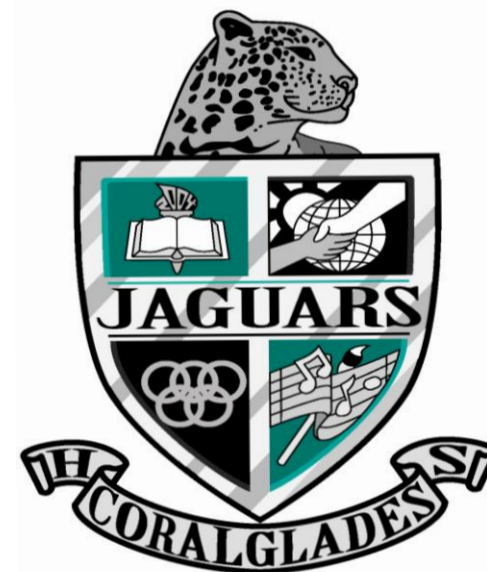

Coral Glades High School Cambridge program is a rigorous program that requires students to fulfill a minimum of seven college level courses/examinations. Admission to this program is limited and students are expected to have demonstrated a commitment to their academics. Students are also encouraged to have successfully taken at least one or more high school courses in middle school prior to applying. Applications can be downloaded at our website at www.coralgladeshigh.com. All applications should be turned into our Guidance Dept. and/or mailed to Coral Glades High School attention: Cambridge Program.

Coral Glades High School Cambridge International Program

Excellence in education

How the program works

The Advanced International Certificate of Education Program (AICE) is an innovative and accelerated method of academic study offered solely through the University of Cambridge International Examination. In this program, students take Advanced International Certificate of Education (AICE) 9-12 courses and can earn an international diploma if they accrue at least 7 credits by passing AICE exams within a three-year period (25 months from the first exam to the last exam). Students must take at least one class in each of the four categories: math, science, languages, arts and humanities, plus the anchor course, Global Perspectives & Research. The remaining three courses can come from any of the categories.

Flexible, Broad, Balanced

By demanding knowledge from four different subject categories, the Cambridge AICE Diploma provides a broad curriculum with a balance of math and science, languages, arts and humanities, and interdisciplinary studies. It still maintains flexibility and choice by allowing students to pick specific subjects and levels.

Course Offerings at CGHS

For the 2017-2018 school year, Coral Glades will offer eleven courses. Incoming 9th graders will enroll in the General Paper and Thinking Skills courses. Rising tenth and eleventh grade students will be able to choose from the following **bold print** courses:

Group 4: Interdisciplinary and skills-based subjects (optional)

General Paper (AS Level one credit only) *

Thinking Skills*

Core: Cambridge Global Perspectives (compulsory)

Global Perspectives & Research (AS Level one credit only)*

High School & College Credits

Students receive high school credit when they pass the course and college credit when they pass the examination. The additional weight on the grade point average is similar to advanced placement: only earned with a C or higher. Colleges award credit on a subject-by-subject basis according to grades earned on individual examinations. Students do not have to complete the 7 points for the Cambridge Diploma in order to receive college credit.
