

A New National History Day Website Category Platform

Coming
November 1, 2019

NHD is excited to release its new custom-built website editor for the 2020 contest. It will replace NHDweebly.

All students competing in the NHD website category must use this new platform.

While your students wait, we encourage them to focus on their research and project development.

NHD will release new instructional materials this fall!

Stay tuned to NHD's social media for more updates.
