

2016–17 Florida History Day “Taking a Stand in History”

SOURCES FOR SOURCES

Archives, libraries, and other repositories around the world have posted online collections of primary sources. Many of these websites also include lesson plans and worksheets to help students learn how to analyze and interpret the materials.

Staff at the State Library and Archives have created a website that lists online resources relating to suggested Florida-based topics. Go to http://www.floridamemory.com/onlineclassroom/history_fair to check out this valuable site. The Florida Electronic Library connects students to scholarly journals, magazines, and eBooks in topic-specific collections, including the American Eras Primary Sources series, History in Dispute series, and History Behind the Headlines.
