All grades are calculated in a student's GPA and will appear on the student's permanent college transcript. Withdrawals may affect subsequent post-secondary admission, financial aid and scholarship opportunities.
- While appropriate for college-level study, course materials and class discussions may reflect topics not typically included in secondary courses. Courses will not be modified to accommodate variations in student age and/or maturity.
- To minimize student costs for excess hours, parents, students and their school counselor should select courses to meet high school graduation and college degree requirements, including approved program common prerequisites. General education courses are strongly encouraged. Visit www.broward.edu/dual for a complete list of dual enrollment approved courses.

Attendance Requirements

It is the student's responsibility to attend all classes in which he/she is enrolled. High school students are responsible for completing the proper college process and notifying their high school counselor if they choose to withdraw from a course. Each faculty member is required to report non-attendance throughout the term up to the 60% period. When students do not attend class up to the 60% period, the student can be withdrawn from the course by faculty based on the class attendance policy, or the student's non-attendance.
