QUARTERLY READING AND MATHEMATICS
PROGRESS MONITORING PLAN (PMP) CRITERIA for K-5
(Revised 9/11/23)**

If performance data indicate the student is working below grade level, a PMP should be initiated; intervention instruction provided; and more frequent progress monitoring administered to target the student's identified needs.

If a student progresses to performing on grade level, the PMP intervention may be discontinued following a parent/teacher conference, where it is documented on the conference form that the intervention will be discontinued due to the student's progression to grade level performance. The teacher and parent must then sign the conference form. Caution is warranted in removing a student from a PMP before the summative outcome assessment measure has been administered at the end of the school year to confirm sustained proficiency level achievement.
