## Preparing Your Child for Kindergarten: A Checklist for Parents and Families Parent Tip #4

This checklist, although not exhaustive, can help to guide you in preparing your child for school. It's best to look at the items included as goals toward which to aim. They should be done, as much as possible, through everyday life or by fun activities you've planned with your child. If your child lags behind in some areas, don't worry. Remember that all children are unique. They grow and develop at different rates—and no one thing guarantees that a child is ready for school.
