WHAT IS A YEARBOOK?

A yearbook is a collection of stories, pictures and memories published by a school to document the events and people that helped shape the history of that school.

Special care is taken by the yearbook staff to try and include every student in the school. It is filled with stories and pictures about the students, faculty and events that take place on the school campus.

Buying a yearbook is a wise investment. The book will last a lifetime and its pages will remind you of the times you spent at your school. A yearbook is for every student, every grade, every year. It is not just for seniors or eighth graders or fifth graders or graduates but for everyone.

Purchase a yearbook every year and keep them as you move through life. It will be a great reminder of your friends and the memories of your youth!
