### **District Educational Facilities Plan FY19 to FY23**

This District Educational Facilities Plan (DEFP-FY19), covers the five-year period beginning July 1, 2018 and ending June 30, 2023. This plan sustains funding for the SMART Program and other projects that were approved in the DEFP that was adopted on September 6, 2017.

### School Safety Funding and SB 7026

Since the Marjory Stoneman Douglas (MSD) High School tragedy, District and school leadership remain focused on meeting the needs of students, employees and the entire school community during an emotional and difficult recovery process.

SB 7026 provided funding for MSD to meet the facility needs necessary to recover from this tragedy. In total, the 2018 Florida Legislature approved \$26.3 million for the District to:

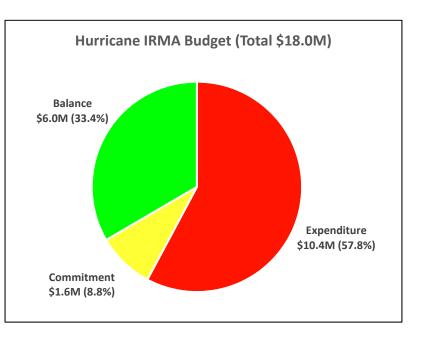

- Provide portables
- Build a new permanent building
- Demolish Building 12
- Construct a monument

In addition to State funding, the District set aside \$6.2 million to address other immediate safety/security needs throughout the District.

### **Hurricane Irma Funding**

In September 2017 District schools sustained damage as a result of Hurricane Irma. The District set aside \$18 million in funding in order to make preparations, emergency repairs and remove debris. The District has spent \$10 million so far with \$8 million remaining to complete the work and liquidate purchase orders.

The District will seek reimbursement of these expenses through FEMA and from the District's insurance carriers.

### **Charter School Capital Outlay Funding**

The 2017 Florida Legislature passed HB 7069 which contains provisions that require the sharing of capital outlay millage with charter schools if the Legislature does not fund charter schools at a minimum per pupil amount. In Fiscal Year (FY) 2018 and the District paid \$11.5 million to charter schools for capital outlay.

The 2018 Florida Legislature passed HB 7055 to mitigate that loss and increased the State's portion of the charter school capital outlay. The District revised projections with the expectation that the State would pick up the full cost of charter school capital outlay for FY 2019 and fund a greater share over the rest of the 5-years in this DEFP.

### **Reserve**

The District sustains reserves to stabilize the SMART Program and other projects in the DEFP. These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated. These reserves are shown on the Appropriations page and details of the approved transactions that impact the reserve funds are shown in the Appendix.

### SMART Program

The SMART Program is currently \$1,009.6 million and is supported with funding from the \$800 million General Obligation Bond (GOB) and \$209.6 million in other capital outlay funding. The SMART Program is mostly unchanged from the DEFP FY18. During FY 2018 the School Board approved accelerating funding for several facilities projects.

### **Completed Projects**

A list of completed projects are shown in the school-by school listing for each school. Completed projects are projects that have had financial activity and the scope of the project has been completed. There may be some additional financial activity on these projects as the final payments are made and all of the purchase orders are closed-out. Remaining balances for projects that are complete will be held until a determination is made and approved by the Board to re-prioritize them for other District needs.

# **Broward County Public Schools**

### **Appendices**

The Appendix section includes other information that is required by section 1013.35, Florida Statutes, and the Citizens Concerned about our Children (CCC) Settlement Agreement to be included in the DEFP. The appendix schedules include: the Portable Transition Plan, the Public School Concurrency Plan (including the Level of Service Plan), the Allocation of Resources & 10 and 20 Year Plan, and the Reserve Activity Report.

Sea Castle Elementary School SMART Project/School Choice Enhancement

### 1. GOB:

4.

Renovation projects and technology for District owned schools and charter schools, funding from General Obligation Bond proceeds of \$800 million.

### 2. SMART Program:

Safety, Music & Art, Athletics, Renovations and Technology (SMART), which is the ongoing capital improvement program to address infrastructure and equipment needs of the Broward County Public Schools. Funding sources are GOB and other capital funding of \$209.6 million, totaling \$1,009.6 million.

### 3. Program Years (SMART):

Program Years 1 through 5 refer to the years that funding is identified for SMART Program projects.

	Program	Program	Program	Program	Program				
	Year 1	Year 2	Year 3	Year 4	Year 5				
Adamstad District Education	FY 2015	FY 2016	FY 2017	EY 2018	FY 2019				
Adopted District Educational Facilities Plan FY18 (DEFP-FY18):									

The District Educational Facilities Plan (DEFP) adopted by the School Board on September 06, 2017.

### 5. District Educational Facilities Plan (DEFP-FY19)

An update to the DEFP-FY18 that includes revised revenue projections, and updated appropriations.

### 6. Fiscal Years:

The fiscal year beginning July 1, 2018 to June 30, 2019 is the Fiscal Year 2019 or FY19.

| Fiscal Year |
|-------------|-------------|-------------|-------------|-------------|
| 2019        | 2020        | 2021        | 2022        | 2023        |

### 7. SMART Website:

Projects Listed on the District's SMART Website, http://browardschools.com/smartfutures

### 8. School Choice Enhancement:

The School Choice Enhancement Program allows every District-owned school in the SMART Program to determine how to spend \$100,000 on smaller capital projects to improve the condition of an instructional space or educational environment.

### 9. District Wide Funding:

Funding/project for locations other than school locations.

### 10. Building Replacement:

Requires additional analysis by the Design Professional when hired to determine if the building is in a condition that would warrant replacement or if the building is sufficiently structurally sound that would make improvements appropriate.

#### **Portable Transition Plan**

#### Part I: Inspection, Disposition, Demolition

Currently, the Broward County School District has a total of 1,473 portables in its inventory. Per feedback received from the Florida Department of Education (FDOE), portables deemed as Fail Standards<sup>1</sup> or Unsatisfactory<sup>2</sup> can be demolished and cannot be used for instructional purposes. Additionally, the portables should be declared surplus by The School Board of Broward County, Florida (SBBC) prior to their demolition.

At this time, 78.6% of the portables are designated for instructional use in Elementary, Middle and High Schools, 8.7% are designated for instructional use in Adult Educational Centers, Technical Colleges and Alternative Centers, 12% are designated for administrative use, and 0.7% are located in other sites (Juvenile Detention Centers).

Facility	Total Portables Remaining in the District's Inventory	Total Portables in Satisfactory Condition	Total Portables in Unsatisfactory Condition <sup>(1) - (2)</sup>	Total Unsatisfactory Portables Listed for Potential Disposition	Lotal Portables	Total Portables Use Percentage
Elementary	444	394	50	48	133	30.1%
Middle	335	302	33	13	138	22.7%
High	382	380	2	2	195	25.8%
Centers	123	121	2	2	3	8.7%
Administration	178	141	37	0	102	12.0%
Other Sites	11	11	0	0	0	0.7%
TOTAL	1,473	1,349	124	65	571	100%

#### Table 1 - Portable Conditions – Fiscal Year 2019

During FY18, the Physical Plant Operations Department (PPO) successfully completed the demolition of 188 portables.

It should also be noted that the District closed on the sale of the New River Circle site (containing 78 portables) on December 15, 2017 and the Edgewood Administration Complex (containing 99 portables) on June 19, 2018. The portables located at both sites were deemed unsatisfactory. Also, both sites were sold "as-is"; therefore, portables located at both sites are no longer a part of the District's Inventory.

After the District's annual inspection of portables, it was determined that for FY19, 65 portables were unsatisfactory due to the compromising effects on the structural integrity, or excessive physical deterioration; and upon submittal of the list of portables along with pertinent information to the FDOE, the State deemed the portables as unsatisfactory.

For FY19, funding was not allocated in the DEFP-FY19 for the demolition of portables due to the significant financial constraints the District is currently under.

<sup>&</sup>lt;sup>1</sup>Portables were deemed to have failed Standards by the Florida Department of Education (FDDE) because these portables did not meet some of the 17 criteria. Therefore, such portables were not affixed with the required DCA (Department of Community Affairs) insignia by the FDDE.

<sup>&</sup>lt;sup>2</sup>Portables deemed unsatisfactory: Are typically due to compromising effects on the structural integrity, or excessive physical deterioration of the portable facility.

<sup>&</sup>lt;sup>3</sup>Portables demolished/disposed from FY14 through FY18 that were approved by the School Board at the board meetings on December 9, 2014, May 19, 2015, and September 7, 2016.

However, during safety inspections or when notification is received that certain portables pose health or safety issues and therefore are unsafe for occupation due diligent measures will be immediately implemented, including seeking specific funding allocation from the School Board to enable immediate demolition of the subject portables.

In addition, on an ongoing basis, District staff will continue to work with school principals to examine and process additional portables that could be deemed as unsatisfactory, be qualified to be declared as surplus, and be subsequently demolished when funding is available. Upon available funding for the demolition of these portables, the data regarding portables in the District's inventory will be updated in the appropriate District databases such as, but not limited to, the District's Planning Tool for School Enrollment and Capacity.

#### **Portable Transition Plan**

#### Part II: Construction of Covered Walkways at Identified Schools

The Portable Transition Plan is called for in the State Requirements for Educational Facilities (SREF). The purpose is to identify schools that have useful portables for instructional purposes where a covered walkway could be constructed to fulfill the required Portable Transition Plan.

#### Criteria for the selection of the schools

- 1. Identify portables needed for instructional purposes (Updated 3/8/2018)
- 2. Examination of the five-year student enrollment projections and Level of Service Standard (LOS) (Updated 3/8/2018)
- 3. Determination of the youngest portables at the school site or those purchased after 1998 (Completed)
- 4. The portables are arranged in a cluster type setting (Completed)

This analysis determined that the schools listed below met the above selection criteria and as such qualify for the construction of covered walkways at the campuses.

	Schools Location	Number of Portables	Estimated Cost <sup>1</sup>
Approved in FY 2015/16	Manatee Bay Elementary	5	Completed
	North Andrews Garden Elementary	6	Completed
Approved in FY 2016/17	Westglades Middle*	13	672,000
	Total	13	672,000
Approved in FY 2017/18	Westglades Middle (additional 3 portables)*	3	175,000

#### Table 3 - List of Schools Slated for Covered Walkways

The Office of Facilities and Construction (OFC) transferred three (3) portables from Glades Middle School to Westglades Middle School. The OFC has submitted plans to the Building Department to obtain the permits needed to construct the covered walkways at Westglades Middle School. The funding for the construction of covered walkways was approved in the Adopted DEFP-FY18.

Analysis to construct the next covered walkways has identified Gator Run Elementary School as the recipient of covered walkways for FY19. The selection of Gator Run Elementary, was based on the criteria cited herein, which included the analysis of the projected enrollment utilizing the District's five-year student enrollment projection and the gross capacity for FY19. The conclusion of the analysis indicated that Gator Run Elementary has the most need for covered walkways in FY19. The estimate provided by OFC for the construction of the covered walkways is \$1,938,000. The OFC will commence the construction process for the covered walkways as soon as the funds are approved in the DEFP-FY19. Thereafter, OFC will initiate the vendor and subject building permit process to enable construction of the covered walkways. The timeline provided by the OFC indicates that the covered walkways are projected to be completed by June 30, 2019.

### **Background**

In Florida State law, concurrency means the implementation of a system whereby the provision of public facilities and services that are needed to serve proposed development is available at the time the impact of the development occurs. In Broward County, residential development cannot be approved until a determination from the School District has been issued, which indicates there is sufficient school capacity available to serve the proposed development. This requirement is codified in the Second Amended Interlocal Agreement for Public School Facility Planning (ILA), a contract between the School Board, Broward County, and 27 municipalities which establishes a public school concurrency

management system. The purpose of this system is to create a mechanism which provides for the coordination of planning among the school district, county, and municipalities to meet the purposes of concurrency. In compliance with amended School Board Policy 1161 (which delineates the District's public school concurrency management system) and which became effective on January 15, 2008, the District commenced the implementation of public school concurrency on February 1, 2008. Subsequently, the local governments in Broward County adopted public school concurrency into their comprehensive plans.

### Comprehensive Plan

For information purposes, a comprehensive plan prescribes the principles, guidelines, and standards for the orderly and balanced future economic, social, physical, environmental, and fiscal development of a jurisdiction (such as a county or municipality). Each comprehensive plan must contain several "elements" that address key issues such as land use, capital improvements, sewer and solid waste, potable water, housing, and intergovernmental coordination. With the implementation of public school concurrency, the county and each municipality within the county – unless exempt –added a public school facilities element to their comprehensive plan, and amended any existing elements that relate to the school facilities element.

Because public school concurrency is implemented district-wide, the public school facilities element (the element) must be consistent with those adopted by the other local governments within the county and must be based upon data and analyses that address, among other items, how the Level of Service (LOS) Standard will be achieved and maintained. The LOS Standard for school facilities is the maximum permissible school utilization rates relative to capacity. The element contains goals that establish the long-term end toward which public school programs and activities are ultimately directed, contains measurable objectives for each goal that mark progress toward the goal, and contains policies for each objective that establish the way programs and activities will be conducted to achieve the goal.

### The Role of the Adopted Five-Year District Educational Facilities Plan

Under public school concurrency, the School District must create a five-year capital plan regarding the provision of needed capacity (classroom additions and/or improvements to existing schools, new schools) to meet the adopted LOS Standard. This plan must show where and when capacity additions will be built, and must also show exactly where the money to build the additions will come from.

The LOS Standard was established jointly in the ILA by the School Board, Broward County and 27 Municipalities within the County. In 2008, the initial LOS Standard was 110% permanent Florida Inventory of School Houses (FISH) capacity. For public school concurrency, the LOS Standard refers to the standard at which a public school facility is expected to operate based upon the "capacity of the facility". For public school facilities, the LOS Standard is expressed as the percentage or ratio of student enrollment to the student capacity of the school. The five-year Capital Improvement Plan (CIP) therefore, must contain enough capacity improvements to achieve and maintain the adopted LOS Standard. In Broward County, the School Board, Broward County and pertinent municipalities have agreed that the five-year District Educational Facilities Plan (DEFP) shall serve as the CIP and shall be adopted into Broward County's and pertinent municipalities' comprehensive plans.

In 2010, the ILA was amended (Second Amended ILA) to temporarily change the LOS Standard from 110% of permanent FISH capacity to 100% gross FISH capacity. This amendment allowed the LOS Standard to include the capacity from relocatables until the 2018/19 school year. Under the current ILA, commencing in the 2019/20 school year, the LOS Standard reverts back to 110% permanent FISH capacity. In 2014 in compliance with the directive contained in the Second Amended ILA, the Oversight Committee for Implementation of the Second Amended Interlocal Agreement for Public School Facility Planning (Oversight Committee) in coordination with the School Board, the County and the Municipalities assessed the viability of reverting back to the 110% permanent FISH capacity LOS. This analysis resulted in the School Board subsequently initiating a third Amendment to the ILA in 2017. The third amendment enables the LOS to be implemented as the higher of: 100% gross capacity or 110% permanent capacity, based on the type of school capacity available on campus. This concept, known as the Alternate LOS Concept, blends both LOS standards previously adopted in the ILA and enables schools to benefit by avoiding school boundary changes that would become necessary to meet the LOS requirements of public school concurrency when the schools have available relocatable capacity onsite. This amendment garnered the support of the municipal planners who are responsible for implementation of the ILA and the Oversight Committee. In 2017, the School Board and Broward County adopted the Third Amended and Restated ILA (TRILA), and the amendment process continues into 2018. In order for the TRILA to become effective, it must be approved by the School Board, Broward County and at least seventy-five percent (75%) of the municipalities, which include at least fifty percent (50%) of the population within Broward County (i.e. 21 Municipal Signatories must approve the TRILA). The amendment process is anticipated to conclude by May 2018, and if sufficient approvals are obtained, implementation of the new LOS will commence in the 2018/19 school year.

The ILA requires the School District to annually transmit the Tentative DEFP to local governments for review to determine consistency of the Tentative Plan with pertinent local government comprehensive plans. Subsequently, the ILA requires that each year after formal adoption of the DEFP by the School Board, the District will transmit the Plan to the County and municipalities for adoption and incorporation into their respective comprehensive plans.

Under public school concurrency, a local government may approve a development if adequate public school facilities (contained within the first three (3) years of the DEFP) will be in place or under actual construction within three (3) years after the development receives final approval. Subsequently, if adequate public school facilities are not available, a developer may pay, if accepted by the School Board, the cost of the improvement (proportionate to the demand that the project is generating, otherwise known as proportionate share mitigation) needed to satisfy the demand created by that development. Upon acceptance of the "proportionate share mitigation" by the School Board, the School Board must amend the five-year DEFP to incorporate that improvement within the first three (3) years of the Plan, and provide the capacity associated with the improvement within three (3) years after the proposed development receives final approval from the local government.

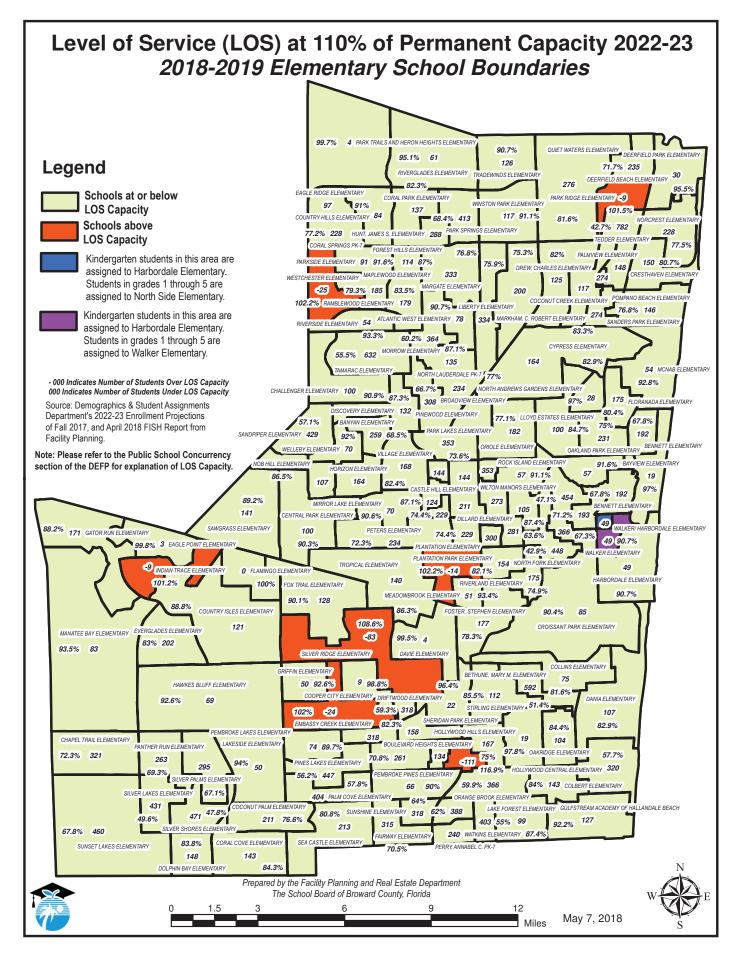

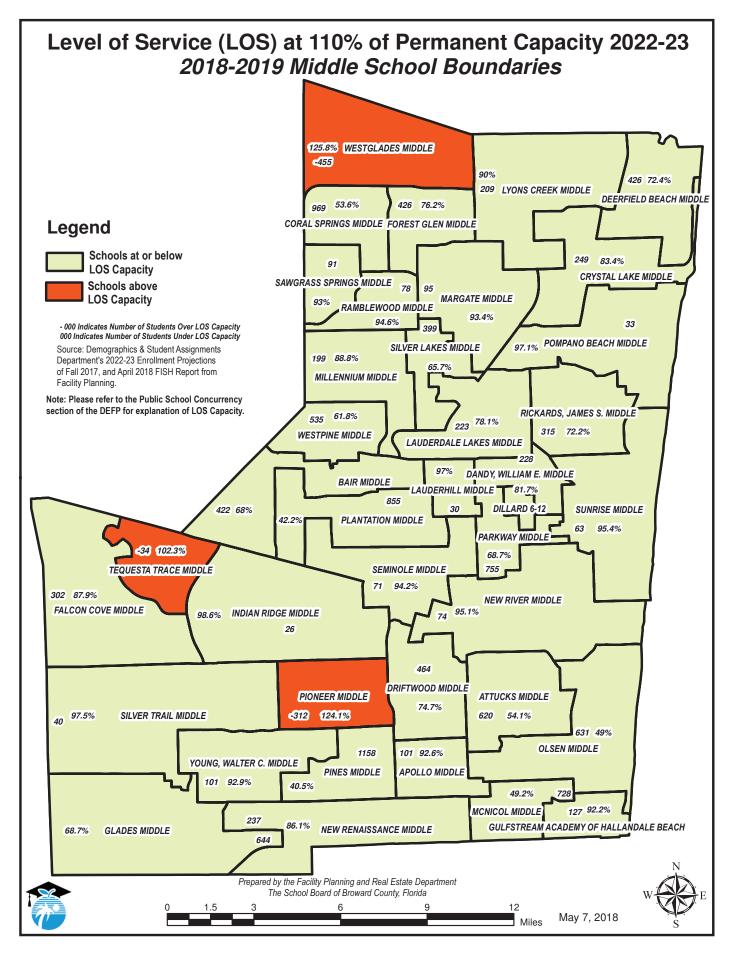

### Long-Term Plan

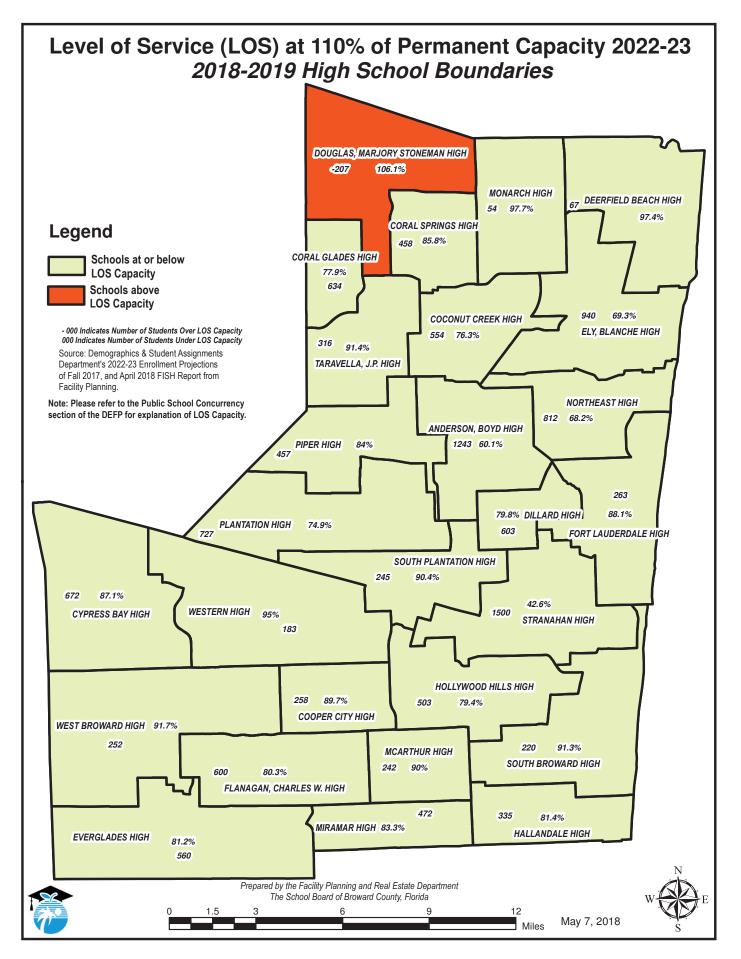

The ILA requires the School District to review proposed residential developments regarding changes to future land use comprehensive plans and rezoning applications that may impact public schools, against a longterm (ten-year) planning horizon. Also, the law requires school districts to create a long-term plan to enable such analysis and planning for future needed public facilities (capacity additions or new school). To meet this requirement, the DEFP includes capacity improvements anticipated over the long term planning horizon (10 years).

### Level of Service Plan

The LOS Plan is a matrix that contains the data to demonstrate each elementary, middle and high school's ability to meet the adopted LOS Standard during each DEFP period by calculating the projected enrollment divided by the LOS capacity of the facility. As previously stated, the LOS Standard is the maximum permissible school utilization rate relative to capacity. The LOS Plan utilizes the adopted LOS capacity contained in the currently effective Second Amended ILA, which is based upon 100% gross capacity up until the end of the 2018/19 school year and commencing in the 2019/20 school year, the LOS capacity will be 110% permanent FISH capacity. The LOS Plan therefore shows the projected enrollment for each of the five years covered by the DEFP divided by the LOS capacity of each school. It should be noted that adjustments are made to the LOS capacity of pertinent schools to include capacity from gualified relocatables (defined as relocatables that were purchased after 1998 and meet the standards for long-term use) as mandated by Section 163.3180(6)(e), Florida Statutes. To be deemed a financially feasible plan, the DEFP must demonstrate that the LOS Standard can be achieved and maintained at each (bounded) elementary, middle and high school over the five-year period. If the third ILA amendment garners the requisite number of approvals to pass, the LOS Plan in next year's (2019/20 – 2023/24) DEFP will be based upon the Alternate LOS Concept. However, School Board Policy 1161 will be revised immediately following the successful passage of the third amendment, and based on the projected timeline for completion of the amendment process and subsequent revisions to School Board Policy; the School District would commence implementation of the Alternate LOS in the 2018/19 school year.

#### **ALLOCATION OF RESOURCES**

### (CCC Settlement Agreement – Condition #8)

The Citizens Concerned about our Children (CCC) Settlement Agreement specifies nine conditions, each of which is intended to ensure that diversity and equity is promoted within Broward County Public Schools. Under each condition of the Agreement, the BCPS with the cooperation of the District's Diversity Committee established standards to address the terms of the Agreement. Condition #8 of the CCC Settlement with the School District requires that the 5-year capital plan and subsequent 5-year capital plans be developed using a structured public analysis.

The District's needs are far beyond what is allocated in this plan but an effort was made to provide resources to improve existing schools to achieve the District's mission of educating all students to reach their highest potential. This 5-year capital plan is an equitable funding plan. All of the dollars allocated in the plan are for schools that are already in operation, to service the debt on the construction financing for many of these schools and to support educational programs at schools throughout the County. The District is committed to updating and upkeeping all schools in a condition that meets the needs of the students and provides benefit to the communities. The District believes that this plan fulfills condition #8 of the CCC Settlement Agreement with regard to the equitable allocation of capital outlay funds.

### 10 AND 20 YEAR PLAN

Over the next 10 and 20 years, there are many capital funding needs in the Broward County School District. The District will continue to assess and evaluate the capital needs in its determination to renovate, update and modernize its facilities.
