General Information – for budget purposes, all schools are covered by these allocations and guidelines.

1. The Budget Guidelines are based on the most recent interpretation of Florida Statutes. If legislative changes occur, guidelines may have to be changed accordingly.
2. Under the direction of the Superintendent, budget instructions are issued to schools. The School Advisory Council assists in the preparation of the school's annual budget as required by s. 1008.385(1). The SAC chairperson will sign off on the budget prior to submission to the Budget Office. Budget conferences will be scheduled by the Office of School Performance and Accountability for all schools. The Budget Office coordinates the consolidation of school budgets into a district budget for submission to the School Board and the State Department of Education.
3. School budgets will be prepared in accordance with all applicable laws, regulations, labor contracts, accreditation agencies, school board policies, administrative directives, etc.
4. Any State reductions in categorical supplements and State prorations will be passed along to the schools and centers, if necessary.
5. After the School Funding Allocations and Guidelines are finalized, any district action that has a financial impact on the school's budget will be categorically funded to the school.
6. All school and center principals have the responsibility of adhering to the School Funding Allocations and Guidelines for the school year. Included in these guidelines is the fact that schools are responsible throughout the course of the year for maintaining a balanced budget (functional area/commitment item).
7. **Accountability**
Accountability funds are allocated to the District through *Florida School Recognition* program funded in the FEFP. The State allocates up to \$100 per student to qualified schools, pursuant to section 1008.36, F.S. If there are funds remaining after the disbursement of recognition awards, the District can allocate up to \$5.00 per unweighted, full-time enrolled (FTE) student to be used at the discretion of the SAC for implementing the school improvement plan. If funds are insufficient to provide \$5.00 per student, the available funds will be prorated. Functional Area **XXXX12109000000**.
****FY23 FEFP 1st Calculation did not appropriate funds for Florida School Recognition and Discretionary Lottery resulting in no funding for Schools at POFR.***
8. **Allocations - Categorical**
Schools will receive categorical allocations as indicated in their specific sections. The restricted categorical allocations cannot be transferred to any other functional area nor can other funds be transferred into these categorical functional areas. For additional information see **Attachment E** for the most recent list of State and Local Restricted Allocations.
9. **Allocations - Support and Instructional**
Each level will receive a Support Allocation and an Instructional Allocation. The purpose of the Support and Instructional Allocation is to flow dollars out to schools in an equitable fashion. These dollars will be utilized to meet requirements such as Materials/Supplies, Media, Custodial Supplies, etc.
10. **Armed Safe School Officer**
State legislative requirements mandate all Florida school districts have a School Resource Officer (SRO) or Safe School Officer at each school. The *Coach Aaron Feis Guardian Program* was implemented during the 2018-19 school year and in the event the local police department is unable to provide a full-time SRO on campus, the District's Special Investigative Unit (SIU) will assign an Armed Safe School Officer through this program. The amount of funding is \$37,259 to be placed in Functional Area **790215307000000**.

This document contains funding allocations & guidelines for schools. Unless specifically noted, it is not intended to be used to mandate staffing patterns or expenditures.

11. Average Salaries

Average salaries will be used for budget purposes for full-time contracted positions and teacher additional periods. Actual salaries will be budgeted for hours beyond contract, extended days beyond contract, and all grant positions except for Title I. The School Board approved Temporary Salary Schedule will be utilized for Adult, Technical and Community School part-time personnel. Average salaries are based on the average from the previous year. For additional information, see Average Salaries, Attachment A and Temporary Salary Schedule, Attachment B.

12. Athletic and Student Activities

Schools that incur **expenses due to participation** in Championship Competitions may request reimbursement of expenses.

For Athletic competitions, schools will submit requests to the Office of Athletics and Student Activities at the completion of their Fall, Winter, and Spring seasons. The Office of Athletics and Student Activities will review the request and forward approved requests to the District Budget Office. The Budget Office will process a budget transfer and will facilitate an ACH to post reimbursement to the participating school.

For Student Activities, including Academic Championship participation, schools will submit requests to the Budget Office.

Total reimbursements may not exceed \$100,000 per fiscal year.

13. Broward Virtual

Per Statute, enrolled students are offered the option of participating in virtual instruction programs. Broward Virtual School is the primary resource utilized by middle and high students to satisfy an online learning graduation requirement. Broward Virtual also utilizes K12 Florida, LLC to provide curriculum, instructional services, parent training, and technical support to students in K-12. Elementary and middle schools are responsible for reimbursing the District from their budget for BVED courses taken by their students. Schools will be responsible to cover invoices for seats.

14. Business Support Center (BSC) Package Fees

Charged to select schools for centralized business services.

Carryovers

Only Fees, Florida School Recognition, AP/AICE/IB, CAPE, Digital Tools and Accountability will carryover.

The budget balance of the following categorical allocations will carryover into the next year's budget **regardless** of the school's overall year-end budget balance:

Principals will be responsible for their end-of-year total balance. Schools will not be permitted to balance their zero activity with non-zero activity funds, except when approved by the Chief School Performance and Accountability Officer and the Chief Financial Officer.

Any positive year-end zero activity balance, after carryovers, in the eight (8) Workforce schools will carryover into the Workforce Education reserve. Carryover will take place **only** if a positive balance remains in the schools overall final year-end adjusted budget balance.

15. **Class Size Reduction**

State class size funding will be allocated based on the state's funding formula in Functional Area ****12101000000. For FY23, American Rescue Plan (ARP) funds will maintain class size funding for K-3 FTE at FY22 state rates.

16. **Class Size Reduction – Critical Needs**

During the Spring Budget conferences, the Budget Conference Team (Budget, TAO, Portfolio, Services, OSPA) may determine that a school is in need of additional funding to meet/improve class size. The District will reserve dollars to allocate to schools as needed. If approved, funds will be placed in Functional Area ****12104000000. These positions are for one year only, and any additional FTE revenue generated by a school may be used to offset the cost of the position during the year.

17. **DOP Contracts – PACE and Amikids**

Funds will be allocated per the Board Approved Contract.

18. **Due From Accounts**

Pursuant to Business Practice Bulletin A-510, Procedures for Reimbursing the General Fund for Schools' Internal Accounts Activities, schools must remit funds due to the District at the end of each month. Outstanding liabilities will be charged to the school's General Fund allocation after 30 calendar days following the end of each fiscal quarter – posting in Functional Area ***61142000000.

19. **Energy Shared Savings Incentive**

The District agrees to pass along part of the utility savings to the schools in a shared savings incentive program. The incentive dollars are intended to allow schools to invest in resource conservation through education materials, field trips, etc., to achieve additional and continued savings, and/or invest in other educational products and services as required. For additional information, contact the Energy Conservation & Utility Management department.

20. **ESOL META Consent Decree**

Funding will be provided for schools with at least 15 students speaking the same native language to provide at least one Bilingual ESP proficient in the same language and trained to assist in ESOL basic subject area instruction. The number of required bilingual ESPs is based on the number of Active ELL (LY) students in Grades KG-12 as of prior-year February.

Phase I: 2021-22 Select Elementary and K-8 Multi-Level sites were provided additional funding above what is generated by ESOL FTE to hire the required number of bilingual ESPs. Schools using a teacher, rather than a Bilingual ESP to meet the META Consent Decree were not provided additional funding.

Phase II: 2022-23 "Beyond Basic" instructional allocation for ESOL FTE is replaced with funding for META Consent Decree Bilingual ESPs to Elementary, Middle, High, Multi-Level & Alternative High schools based on number of Active ELL (LY) students in Grades KG-12 as of prior-year February. The expectation is that all funded schools will hire Bilingual ESPs to support META Consent Decree requirements.

Funding cannot be used for other positions. Position(s) must be advertised until filled with the required language.

21. **Fee Advance**

Upon request, schools will receive up to **50%** of their actual prior year fees collected in the school operated programs. Fees collected will not be added into a school’s budget until they exceed the initial amount budgeted. If, at the end of the year, the amount of advanced fees exceeds the total amount collected for the school year, the balance of funds will be removed from their budget. All fee-based programs are expected to cover all program costs including fringe benefit costs.

Upon request, schools with private provider programs will be able to receive up to **75%** of their actual prior year fees collected from the private provider operated program.

22. **Florida School Recognition (A+)**

The State advises which schools earned funds and will receive the allocation. There will be a fringe cost deducted before the funds are allocated to the school. If the school does not utilize the entire allocation for bonus payments, they may request reimbursement. FY22 Fringe Rate is 9.02%.

23. **Fringe Benefit Rates**

To simplify the budget process and monthly reconciliation of school budgets, fixed and variable fringe benefits will not be included in school General Fund budgets. Fringe benefits have been removed from the calculation of instructional allocation and the support allocation, as well as all categorical funds.

24. **FTE Funding Adjustments**

In order to provide fair and equitable funding, the FTE generated by any student who transfers from one school to another after the FTE period may be reviewed by the Office of School Performance and Accountability for a possible funding adjustment at the request of the receiving school principal. In addition, home/second school FTE funding inequities may require a budget transfer after the FTE survey periods.

25. **Human Relations Council**

Schools listed below will receive a \$500 stipend for a Human Relations Council Advisor. Funding will be placed in Functional Area **5801000000000000**. Wage Type 8HRC should be used.

Middle	Alternative/Adult High
Multi-Level 6-12	Technical Colleges
High

Schools will receive \$2 per WFTE budgeted in Functional Area ****123010000000.

29. **Instructional Materials**

The District has centralized the purchasing of the annual core program implementation allowing schools to budget their instructional materials allocation for non-state adopted materials, after purchases made for gap material purchases, due to increases in enrollment, by transferring funds from Functional area ****122010000000 to Functional Area****122020000000. Schools may not overspend their allocation.

The maintenance of effort instructional materials, media materials and science lab replacements will be allocated to schools and centers based on projected unweighted FTE for securing instructional materials prior to the start of the next school year. These funds will be placed in Functional Area **5651122010000000** (Instructional Materials) and **5652122030000000** (Science Lab).

After the October FTE survey, the *tentative* allocation will be adjusted to appropriate the remaining unallocated funds that were not initially allocated. A reserve of 1.5% of the total funds will absorb the instructional materials costs associated with dual enrollment/early admissions programs, freight expenses, and state holdbacks.

The Instructional Allocation rates may vary depending on the number of unanticipated decreases and/or increases in unweighted FTE district.

Schools are required to receive new district adoptions, a textbook per child, in the core subject areas of reading, literature, language arts, mathematics, science and social studies before purchasing any supplemental and/or non-core instructional materials. In addition, funds must be spent on any gap material purchases due to increases in enrollment before purchasing any supplemental and/or non-core instructional materials.

Schools are required to budget funds allocated in the Support Allocation and/or Instructional Allocation to meet this requirement. 31. Materials and Supplies Minimum Requirement

Schools are required to budget funds allocated in the Support Allocation and/or Instructional Allocation to meet this requirement. Materials and Supplies Requirement is minimum **\$18.00 per UFTE all schools**. Functional area **5652000000000000**.

32. Prior Year Encumbrances

At the end of each fiscal year, outstanding purchase orders, for materials received by June 30, and their appropriation will carryforward into the next fiscal year. These purchase orders will remain open to facilitate invoice processing until month-end October, at which time the purchase order will be closed. Unused funds are returned to District. If any additional expenses occur after a prior year purchase order is closed will need to use current year budget.

Requests for exceptions must be submitted to the Procurement Department by May 27th and will be submitted to Cabinet for approval consideration. All remaining purchase orders will be closed. If any additional expenses occur after purchase order is closed will need to use next year budget.

33. Program Cost Factors

Funds will be allocated on the basis of weighted FTE's (see Cost Factors, **Attachment F**).

34. Purchasing Card (P-Card)

Funds 1005 (for General Fund) and 1045 (for Aftercare) have been established to isolate purchasing card (P-Card) expenses. The P-Card program is administered by the Procurement & Warehousing Services office to assist schools and departments in obtaining commodities directly from suppliers.

For all rules and regulations related to the P-Card, refer to the following link:

https://browardcountyschools.sharepoint.com/sites/Procurement/Training%20Documents/PCard%20Program/PWS_PCard%20Manual.pdf

This document contains funding allocations & guidelines for schools. Unless specifically noted, it is not intended to be used to mandate staffing patterns or expenditures.

35. Salary Lapse

Salary Lapse is the portion of a budgeted salary for the period in which a main job position is unfilled. In the event an unfilled “instructional” position exists for an extended period of time and a substitute is utilized to cover the vacancy (with the approval of Talent Acquisition) until a qualified applicant is hired, salary lapse may be used to cover the expense of the substitute. This expense may not exceed the amount of the salary lapse generated and will be charged to Fund 1035, preventing a double expense to the school. If a position is not needed and “delimited” these Salary Lapse funds will remain in the School’s Primary Salary Budget and returned to District.

36. School Discretionary

Schools, except for those with a middle school support allocation and contracts (PACE, AMkids, Whispering Pines Off-Campus, Broward Virtual Elementary) will receive a discretionary allocation of \$1 per unweighted FTE, with a minimum allocation of \$500. Sheridan Tech HS	\$500	Lauderhill 6-12	\$1000

Each school will be responsible for funding the supplement for the school’s SECME coordinator.

Support Allocation Supplement Funding Functional Area 5801000000000000

These categorical funds will be restricted to use in Functional Area *****660800000000**. Schools that do not participate in the Broward SECME/STEM Olympiad will have the funds removed by the Applied Learning Department at year end.

40. Security Relief

The coding for summer camp is **FUND 1040 FA 9102640240000000**. Any Remaining balances may be used at the school's discretion (e.g. maintain balance as startup funds for following year's Summer Camp, submit a budget transfer to FUND 1025 to enhance Before/Aftercare Program during the school year, or submit a budget transfer to FUND 1000 00000 to enhance other student initiatives).

The professional development course offerings will develop teacher's instructional practices that will impact the student achievement of the English Language Arts/Literacy standards. Documentation must be kept of activities for possible DOE audit.

Budget Amendment Calendar and Workload/FTE Reporting

School budgets may be amended after Fall and Winter Survey periods as a result of decisions made at the Directors' Forum. In the event that the Directors' Forum does not approve an amendment after Fall and/or Winter Survey of the current school year, a full year adjustment will be incorporated into these budgets for the following school year.

Workload/FTE calculations will be performed through the Workforce Education Information Management Department (WEIM Department), utilizing the methodology established by the FLDOE Division of Career and Adult Education. Calculations will be based on Student Instructional Hours for each course that the student is enrolled.

For Career & Technical Education courses, Student Instructional Hours will be based on the total number of instructional hours the student will receive from the first day of enrollment to the end of the term.

For Apprenticeship courses, Student Instructional Hours will be based on the total number of instructional hours for the course within a term. Student Instructional Hours eligible for funding will be restricted by the date of enrollment and Last Day of Eligibility (LDE).

For Adult General Education (AGE) courses, Student Instructional Hours will be based on the total number of instructional hours the student will receive from the first day of enrollment as defined by State Board Rule 6A – 10.0381 to the end of the course within a term, or the student withdrawal date from the course.

Enrollment/Funding Guidelines by Cost Reporting Code (CRC)

Community School North and South will transfer \$1,000 in custodial supplies per year to selected school sites where their programs are offered. Adjustments to this allocation may occur based on Survey W enrollment data and be adjusted during the October survey.

The eight WFE schools will be required to share in the cost of the expenses incurred on their behalf which will be approved by the Directors' Forum.

This document contains funding allocations & guidelines for schools. Unless specifically noted, it is not intended to be used to mandate staffing patterns or expenditures.

Program Completer Incentive Allocation

Local funding from the District Workforce Education Fund may be allocated for the purpose of rewarding Schools/Colleges for students achieving the final exit level/point of their instructional program(s). Only the following instructional offerings will be eligible for these funds: all certificate and applied technology diploma programs and adult basic education and ESOL programs. A district formula based on local program data will be used to allocate these dollars. These funds will be allocated by the Directors' Forum.

Program Improvement Fund

Local funding from the District Workforce Education Fund may be allocated each year for the purpose of improving and enhancing workforce education programs in our Technical College(s). These funds will be placed in Activity *79104* and will carry over each year at the district level in the Workforce District Reserve.

Quick Response Fund

Local funding from the District Workforce Education Fund may be allocated each year in Activity *66156* to the Workforce Education Schools to develop and implement programs of instruction that meet the immediate needs of the business community. Sheridan Technical College – 48%

McFatter Technical College – 25%

Atlantic Technical College – 28%

Technology Funds

Technology funds are generated based on the prior year's 5% of PAVE fees collected. Those funds are allocated equally between the three technical colleges in functional area **5653670290000000**.

Adjustments to school budgets will be made by the Budget Office as approved by the Directors' Forum.

Career Dual Enrolled Student Textbooks

An allocation of up to \$100,000 will be provided to the three Technical Colleges based on a formula of CDE students enrolled at each of the colleges to offset the cost of required textbooks as approved by the Directors' Forum.

- Educational Functioning Level (EFL) Gain made on one or more academic area
- Obtainment of a high school equivalency diploma

State reporting data for all three survey periods (F,W and S) will be used to calculate the dollars earned by each location. Qualifying programs of instruction include Adult Basic Education (ABE), GED Preparation and English for Speakers of Other Languages (ESOL). A dollar amount per measurable gain will be established at the Directors' Forum.

State/Local FTE Funding Model

Due to the pandemic's disruption regarding the decrease in postsecondary student enrollment, the State Workforce Education funding model that is utilized to establish Projection of Revenue for the 2022-23 school year may be adjusted to establish a new four (4) year FTE model. Any adjustments will be approved by the Director's Forum.

Adult General Education Revenue Adjustment

Due to the significant decreases in Adult General Education for the four (4) year state FTE average (17-18, 18-19, 19-20 and 20-21), a manual revenue adjustment may be made to the Workforce colleges/schools. This adjustment would not exceed \$2 million in total if state funding levels for the 2022-23 school year permits. Any budgetary adjustment would be approved at the Director's Forum.

1. **Purpose of the Program**

The purpose of Title I is to support school efforts to ensure that all children meet challenging academic standards and have a fair, equal, and significant opportunity to obtain a high-quality education. This purpose can be accomplished by providing additional resources for high poverty schools to enhance educational opportunities for disadvantaged students.

Title I funds must be used **in addition to** District and State funds. All of the services students would receive in the absence of Title I must be in place before Title I funds are used.

2. **Historical Update**

First enacted in 1965 as a component of President Johnson's "War on Poverty" program, Title I of the Elementary and Secondary Education Act (ESEA) had its impetus in Public Law (P.L.) 100-297. This law authorized federal funds for supplementary programs to help educationally deprived children whose academic achievement was below an appropriate level for children their same age and it focused funds in high-poverty areas.

In 1981, during President Reagan's administration, the program name changed from ESEA Title I to Education Consolidation and Improvement Act (ECIA) Chapter 1. In the 1988 reauthorization, the ECIA was changed back to ESEA.

In the October 1994, reauthorization of Chapter 1 law (P.L.103-382) by the United States Congress changed the program name from ECIA Chapter 1 to ESEA Title I. The "Improving America's School Act of 1994" signed by President Clinton, included changes to Title I allocation provisions in an effort to target more Title I funds to the districts and schools with the highest concentration of poverty.

On January 8, 2002, President Bush signed into law the "No Child Left Behind Act of 2001," amending the Elementary and Secondary Education Act of 1965. Title I of the ESEA, as amended by the NCLB Act, is designed to help disadvantaged children meet high academic standards and sets a goal of all children achieving at state-defined "proficient" level by the end of 2013-14.

On September 23, 2011, the U.S. Department of Education invited each State Educational Agency (SEA) to request flexibility regarding specific requirements of the No Child Left Behind Act of 2001 (NCLB) in exchange for rigorous and comprehensive State-developed plans designed to improve educational outcomes for all students, close achievement gaps, increase equity, and improve the quality of instruction. Florida's request for ESEA flexibility was approved on February 9, 2012. ESEA flexibility enables states and districts to better advance their work by developing locally tailored solutions to address their most pressing education challenges.

On December 10, 2015, President Obama signed into law The Elementary and Secondary Education Act, known as the Every Student Succeeds Act (ESSA). This supersedes the No Child Left Behind Act by providing more power to state and local officials over school testing and underachieving schools. ESSA keeps annual math and reading testing requirements for Grades 3 through 8 but reduces high school testing to one time prior to graduation. Schools must still report annually on test scores and keep track of demographics, including race, economic status and disabilities.

3. **General Information**

a. **What is Title I?**

Title I is a federally funded program for economically disadvantaged children who reside in school attendance areas with a high concentration of children from low income families. Since a high incidence of poverty in a school has a direct correlation with low academic student achievement, Title I funds are used to provide supplementary instruction to raise the achievement of students who are failing or who are at-risk of failing.

b. **How are Title I schools selected?**

Schools are selected to receive Title I services when the school's level of poverty is at or above 50% (based upon the number of students who qualify for free/reduced price meals). Title I funds are used to serve as many schools as possible while targeting resources sufficiently to schools where needs are greatest.

c. What is the Title I program goal?

The goal of the Title I program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments. This goal can be accomplished by:

- Ensuring that high-quality academic assessments, accountability systems, teacher preparation and training, curriculum, and instructional materials are aligned with standards.
- Meeting the educational needs of low-achieving children in our highest-poverty schools.
- Closing the achievement gap between high and low-performing children, especially the achievement gaps between minority and non-minority students, and between disadvantaged children and their more advantaged peers.
- Holding schools, districts, and states accountable for improving the academic achievement of all students.
- Distributing and targeting resources sufficiently to make a difference where needs are greatest.
- Improving and strengthening accountability in teaching and learning.
- Providing greater decision-making authority and flexibility to schools and teachers in exchange for greater responsibility for student performance.
- Providing children an enriched and accelerated educational program.
- Affording parents substantial and meaningful opportunities to participate in the education of their children.

d. How many students participate in Title I?

In FY22, a projected 97,888 students in 201 public, charter and DJJ schools will receive Title I services.

e. Which students are targeted for Title I services?

Students in grades K-8 who are identified as failing, or most at risk of failing to meet the State's challenging performance standards and have the greatest need for special assistance in these schools and institutions:

- 103 School-wide projects in District elementary schools
- 37 School-wide projects in District middle schools
- 56 Charter schools in Broward County
- 78 Non-public schools in Broward County
- 28 Institutions for neglected youth
- 5 Title I DJJ Institutions for delinquent youth

f. How are private school children selected for Title I program services?

Private school children who are assigned to a Title I eligible public school may receive services if the private school they attend meets qualifications for requesting and receiving federally funded Title I services **and participates in timely and meaningful consultation throughout the year with the LEA.**

g. How are children in institutions for the neglected or delinquent eligible for Title I services?

Children in designated institutions for neglected or delinquent youth that are approved by the Florida Department of Education are eligible for Title I services. Services provided are intended to enable eligible youth to have the same opportunity to meet challenging State academic and content standards that all children/youth are expected to meet.

h. How do children in public charter schools become eligible for Title I services?

In order to receive Title I funds, a public charter school must meet the same eligibility requirements as district public schools. Schools with 50% or more of the student population in grades K-8 receiving free or reduced-price meals are eligible for services.

i. What are the instructional program options?

School-wide project schools have the flexibility to organize for learning in a manner that yields maximum gains in student achievement, as long as the District and State funded staffs are in place before Title I personnel are added to the school's budget. Title I funded personnel are instructional or support persons who directly contribute to the education of children and parents.

A Targeted Assistance school must identify eligible children who have the greatest need for assistance. These are children identified as failing or most at risk of failing to meet the State's challenging student academic achievement standards on the basis of multiple educationally related objective criteria established by the district and supplemented by the school. However, children through grade two must be selected solely on the basis of such criteria as teacher judgment, interviews with parents, and developmentally appropriate measures.

j. What is the role of parents in the Title I program?

Public Law 114-95 mandates that a district may not receive Title I funds unless parents are involved in planning and implementing the Title I program. A greater emphasis is placed on having schools engage parents in supporting their children through direct parental engagement in the educational process, such as homework monitoring, enhanced communication between teachers and parents/guardians, home visits, school-parent compacts and other mechanisms. **Each Title I school must conduct a Title I Annual Public Meeting.**

4. Guidelines

a. Federal Title I Allocation

The Federal Title I budget allocation for the 2020-2021 fiscal year was \$73,384,309

b. Supplement, Not Supplant

Title I funds must be supplemental to general fund dollars. The District must provide the same general fund dollars to schools for all Title I eligible students as for non-Title I students. Failure to comply with the "Supplement, Not Supplant" provision could result in reversion of funds. **Federal funds cannot be used to pay for statutory requirements (i.e., class size). Although Title I funds may be used to reduce class size, they cannot be used to meet the class size requirement. Appropriate documentation must be provided for auditors to review if federal funds are used for this purpose.**

c. School Improvement/Title I School-wide Plan

Annually, each Title I eligible school is required to engage in assessing its needs. The Title I, Migrant and Special Programs Department and the Office of Service Quality will work collaboratively with Title I eligible schools to develop a single plan. In order to satisfy the Florida Department of Education guidelines, it is necessary to ensure that all components of the Title I School-wide Plan are incorporated into the School Improvement Plan, thereby requiring only one plan **with a Title I addendum. Your Title I budget must be aligned to your School Improvement Plan in order to meet compliance with the Ten Title I School-wide Components. In addition, your activities should also be aligned to the core components of the District's Strategic Plan, which is anchored on High-Quality Instruction.**

d. Individual Title I School Budget

Each eligible school has an individual Title I budget that includes all school level budgeted Title I expenditures.

- Title I funds may be spent for employee salaries, employee fringe benefits, professional development, supplemental equipment and software, classroom library books (classroom sets only), instructional games, parental involvement staff and activities, travel, and classroom materials and supplies (textbook expenditures must be in addition to what general funds provide, supplementary to district). **Supplemental salaries and activities must be aimed towards improving student achievement to meet your school's unique needs aligned to your School Improvement Plan (i.e., teacher, coach, teacher assistant Title I, community liaison, instructional materials). ESE teachers and special teachers are not to be coded to Title I.**
- **Fringe benefits must be accounted for on all salaried positions.**
- **Once the plan is approved, the only allowable changes will be within the same function and same roll-up commitment item.**
- **Coaches and resource teachers funded 100% out of Title I cannot be assigned students. Compliance with reporting requirements for federal programs will apply to all coaches funded less than 100%.**
- Expenditures should not exceed the District's per pupil costs.

- Title I funds may not be spent for administrative use.
- Standard Practice Bulletin A-467 addresses the approval/authorization processes of Title I transactions.

e. Roles, Responsibilities and Accountability

The School will:

1. Be accountable for any audit exceptions and/or audit findings, which could result in a loss of funds to the school and/or district.
2. Comply with District Policy and Federal Regulations regarding expenditures.
3. Process transactions and maintain copies of the following transactions for audit purposes: Requisitions, Invoices, change order forms, sub slips, travel vouchers and projected budgets.
4. Assure that all materials are received, invoices are paid, and monitor to ensure purchase orders are closed prior to year-end.
5. Create iForms and Declaration of Vacancies to the Budget Department-grants area for processing Title I personnel.
6. Designate a Title I Liaison. The Title I Liaison will receive a supplement paid through district Title I funds.

The Title I Liaison will:

1. Attend Title I Liaison Meetings
2. Act as the contact between school and Title I Department.
3. Monitor program operations assuring that programs are tied to student achievement.
4. Have a clear understanding of compliance eBinder components for 100% completion and approval.
5. Ensuring that all programmatic and budget deadlines are met.

f. School-wide Projects

Schools with 50% or more of the student population receiving free or reduced priced meals are designated school-wide project. Title I funds may be used to benefit all of the students in a school-wide project.

g. Parental Involvement/Engagement

All Title I schools are required to spend their minimum allocated parental involvement funds on parent and family engagement training activities. Title I funds may be used to purchase food only for parent and family engagement through the purchase order process from an approved School Board vendor. The maximum amount to be used for food purchases is 30% of your total Parental Involvement allocation for parent and family engagement training events. If using Publix Supermarket-You MUST shop at the same location where purchase order was created for every refreshment purchase. Paper products are not allowable expenses. Training on how to effectively use agendas as a communication tool must be provided to parents/guardians if purchasing agendas with Title I funds. We recommend that this be done at your Title I Annual Public Meeting.

h. Extended Learning Opportunities (ELO) and/or Professional Development

To enhance the flexibility of each school's ability to operate in the best interests of their students, ten percent of the Title I allocation may be utilized for Extended Learning Opportunities (ELO) and/or high-quality Professional Development.

**Title III, Part A Supplemental Support for
English Language Learners Allocations
2022-2023**

The purpose of Title III, Part A Supplementary Support for English Language Learners (ELLs) grant is to improve the educational achievement of ELLs by increasing their English language proficiency and ability to meet the same challenging State academic content and student academic standards as all children are expected to meet. This purpose can be accomplished by providing additional resources for schools with a high enrollment of ELLs in order to enhance educational opportunities.

All school sites are responsible for maintaining sufficient resources for the ESOL program. Title III funds serve in a capacity to supplement these existing resources. With this added layer of support, the site is able to manage ESOL operations more efficiently, more effectively, and more meaningfully.

Language Enrichment Camp funding is allocated after October. Principals will receive information via a memo on PIVOT. Funding is not placed in a school's budget. Schools must apply towards their allotted funding using the designated forms and follow the outlined process in the memo.

Supplemental Instructional Materials funding is allocated after October. Principals will receive information via a memo on PIVOT. Allocations are not placed in a school's budget. Schools must order their materials using the designated forms and follow the outlined process in the memo. This funding is pending the final Title III allocation from the state. It is not a recurring allocation.

ESOL Resource Teacher Supplemental Positions for the 2022-2023 school year will be funded based on the school's ELL enrollment reported during the October 2021 FTE Survey. Schools receiving a new allocation for 2022-2023 will receive funding based on the average salary for a teacher. Please budget accordingly.

These are strictly supplemental, one-year only positions, which have no impact on class size reduction requirements and cannot be used to fulfill the META Consent Decree requirement. The supplemental positions must meet the following Title III requirements in addition to the responsibilities listed in the **ESOL Resource Teacher** job description.

Substitutes

Department Head Release Time Funding

As specified in the School Board/Broward Teacher's Union Collective Bargaining Agreement, schools will receive funds for Release Time for Department Heads, Grade Level Chairpersons, and Team Leaders. Schools will receive funds for one substitute teacher per team leader per month for ten months, August through May. Each level's allocation is indicated below:

<u>Level</u>	<u>Total</u>
Elementary	\$ 9,179
Multi-Level:	\$10,490
Beachside/Gulfstream Academy/AC Perry/ Lauderhill/Dillard/Millennium	
Middle	\$10,490
High	\$10,490
Technical	\$10,490
Centers with Sub Incentive	\$10,835
DJJ:	
Broward Detention/Broward Youth Treatment	\$ 1,406

These funds will be placed in Functional Area **5719657190000000**.

ESE Staffings

Schools (excluding ESE Centers) will receive funds in the amount of **\$567,817** to support the use of substitute teachers for ESE-related activities such as staffings, staff development related to ESE, IEP meetings, observations of classrooms or to conduct alternate assessments in lieu of the regular district/state assessments. These funds will be included in the projected budget and placed in Functional Area **5719000000000000**. Funding is based on prior year February unweighted FTE.

Pool Subs

The Substitute Teacher Allocation distributed in the Instructional Allocation (I/A) will be funded categorically per WTD FTE. For elementary, middle, alternative, and alternative adult high schools, if the I/A funding for the Substitute Teacher Allocation is less than **\$50,612**, schools will receive a pool sub allocation to fund the difference. For high schools and technical colleges, if the I/A funding is less than **\$75,918**, schools will receive a pool sub allocation to fund the difference. These funds will be placed in Functional Area **5701657100000000**. These allocations will be adjusted based on actual October FTE.

Behavior Change schools will receive funding in the amount of **\$50,612**. These funds will be placed in Functional Area **5701675710000000**.

PSAT Proctors

High schools will receive \$145 per unweighted FTE for each group of 30 tenth grade students based on October FTE. The purpose of these funds is to provide proctors and/or substitutes. This allocation will be fixed at the time of the October budget adjustment. Funds will be budgeted in Functional Area **5719000000000000**.

Substitute Instructional Allocation

Schools are required to budget this amount in Functional Area **5701657100000000**. Note that schools utilize this funding with Pool Sub funding to meet the minimum requirement of 8 days per Instructional position ($\$145 \text{ sub cost} \times 8 = \$1,160$).

Substitute Teacher Reimbursement

Substitutes for teachers on an extended absence of more than 30 days (FMLA, Disability, and Administrative Leave) and/or unfilled positions* will be coded to Fund 1035 thus removing the expenditure from the General Fund budget. Teacher substitute expenses will be reviewed for validity on a periodic basis.

*Note: Interim substitutes cannot be hired for unfilled positions without the approval of Talent Acquisition.

Teacher - Sick Leave

Functional area **5701657100000000** has been established for **substitute teacher sick leave**. Pool subs utilized for teacher sick absences may be coded to **5701657100000000**, all other positions related to teacher sick leave, may be changed daily by entering a cost override.

Schools are required to budget **\$1,160** per instructional position requiring substitutes, from their FTE revenue allocation. This appropriation will not be changed (increased or decreased) after the October State FTE revision unless the school qualifies for re-budgeting in February. Actual teacher sick leave hours will serve as the basis for substitute cost in determining district support of substitute deficits.

Custodial Allocation

In order to fund custodians more fairly the custodian positions were removed from the Support Allocation and redistributed through a separate funding mechanism. In developing a new custodial funding mechanism, the Superintendent's Ad Hoc Budget Review Current Funding Model Sub-Committee reviewed the state's "Five Factor Formula". Duval, Hillsborough and Orange Counties all use variations of this staffing model. The "Five Factor Formula" is shown below:

1) Teacher Factor	1 custodian for every 8 teachers
2) Student Factor	1 custodian for every 225 students
3) Room Factor	1 custodian for every 11 rooms
4) Area Factor	1 custodian for every 15,000 square feet of building area
5) Site Factor	1 custodian for every 2 acres of grounds to upkeep. The state site factor is fixed by school type as follows: Elementary Schools: 4 acres divided by 2 = Site Factor of 2 Middle Schools: 6 acres divided by 2 = Site Factor of 3 High Schools: 8 acres divided by 2 = Site Factor of 4
CUSTODIANS NEEDED	Add five factors above and divide total by 5

The Florida Department of Education's Office of Educational Facilities generates a Custodial Personnel Needs report by county that is based on the "Five Factor Formula". In studying the report for Broward County it became apparent that two of the factors were skewing the data. The room factor is based on the total number of rooms listed in the F.I.S.H. report for each school. The F.I.S.H. report contains all the rooms at a given facility including storage areas. The result is an inordinately large room factor. The site factor which is based on the type of school seemed to err on the low side.

It was decided to eliminate these two factors from the equation in order to develop a more realistic staffing model. To compensate for removing two physical factors from the equation (room and site) the area factor has been included twice. By weighting the area factor double, a balance between human and physical factors is maintained in the equation.

Bathroom square footage included within the F.I.S.H. report showing total building square footage has been isolated and calculated at 200%. Covered walkways, patios, storage rooms, mechanical rooms, electrical rooms and greenhouses are currently excluded from the total square footage of the building and 20% of the square footage for covered walkways is added back.

Custodians will be funded based on the following factors:

- 1) **Teacher Factor** 1 custodian / per 8 teachers
- 2) **Student Factor** 1 custodian / per 225 students
Exceptional Centers 1 / 75
- 3 & 4) **Area Factor** 1 custodian / per 20,000 sq. ft.
Exceptional Centers - 1 / 19,400 sq. ft
Technical - 1 / 19,000 sq. ft.

CUSTODIANS NEEDED Add four factors above and divide total by 4.

Schools are funded a minimum of 3.5 positions, *Exceptional and Behavior Change Centers will have a minimum of 2 positions.*

The Area Factor was adjusted to the point where the model operated within the funding allocated by level at time of realignment.

Under this model, school budgets will include a separate Custodial Allocation. This allocation will be based on applying the model to the best available data. Student and portable information will be based on projections and the number of teachers will be taken from the latest available information from the current budget year. The FISH report will serve as the data source for building square footage. This data will calculate the number of custodians needed for each school. Schools will receive the dollar amount represented by the number of positions determined needed. School-based management decisions are allowable. An example is shown below:

School: ABC High School

Custodians Needed:	9.23	Number	Average Salary	Expense
Head Facility Serviceperson:		1.00	\$50,592	\$50,592
Asst. Head Facility Serviceperson:		1.00	43,180	43,180
Yardperson:		1.00	43,472	0

Custodial Subs:		.23	7,055	20,527
Contract Service for Lawn Care:				30,000
TOTAL:			\$328,337	\$328,337

Innovative Programs Design/Support Department
2022-2023 Budget Guidelines for Magnet, Innovative and Authorized Programs

General Guidelines

The Innovative and Magnet Budget Guidelines identify funding based upon the needs of the themed program within the confines of the available budget

Innovative Program Funding

Funding for "Materials/Supplies/Student Activities" will be provided to schools that have been approved through, and are implementing Innovative Programs Design/Support Department. Funding will be allocated by school Functional area 5652121540000000. Schools previously identified as being an Innovative Program school by virtue of implementing the Cambridge program is NO LONGER included in this category. Should said Cambridge school also be implementing an additional IP, that school will continue to receive funding in this category. Said funding will be based on DSA enrollment projections for the 2022-2023 school year as follows: 1-500 students- \$1,200; 501-1000 students- \$1,500; 1001-1500 students- \$2,000; >1500 students- \$2,500.

Magnet Program Funding

The Magnet funding calculation is based on the personnel and unique program requirements for each thematic program. Funding supports the implementation of current programs and does not include start-up costs. Magnet Programs that offer highly specialized programs and courses may have reoccurring and/or additional funding needed to support and sustain the unique needs of the program. These funds are reviewed and revised on an annual basis. Elementary Magnet schools serve all students at the site, funding is theme specific, and is based on a school-wide model. The Elementary Magnet Coordinator positions are funded at 25% of the average salary except for Beachside Montessori K-8 which is funded at 100%. Secondary magnet schools include both programs within-a-school and whole school models. At the secondary school level, one Magnet Coordinator position will be funded at 100% of the average salary providing the number of applicants to the program are 22 students or greater for the previous year. Programs not meeting the established threshold of 22 applicants will be funded at 50% of the average salary. Application numbers for schools with multiple programs will be considered in determining position funding.

Advanced International Certificate (AICE) and International Baccalaureate (IB) Funding

Students scoring E or higher on the University of Cambridge International Exam generate 0.16 weighted FTE and those that earn a diploma generate .30 weighted FTE. Schools were allocated 98% of the prior year allocation as 2% was realigned and held in reserve to support middle and elementary feeder schools. These funds will also be used to provide high schools in their first and second year of Cambridge implementation, a one-time supplement of \$10,000 for the purpose of securing initial professional development for teachers and/or paying for the initial application fee. AICE allocation will be adjusted based on actual test scores reported as add on FTE Survey 5. Florida statute requires the AICE allocation be used for instructional staff, materials, and to fund bonus payments for AICE teachers and coordinators. Schools will be responsible for exam costs and the unexpended funds will carryover (based upon the carryover rules) into the following school year. AICE funding and expenditures will be coded to Functional Area ****630600000000

Students scoring 4 or higher on the International Baccalaureate Exam generate 0.16 weighted FTE and those that earn a diploma generate 0.30 weighted FTE. Schools were allocated 100% of the prior year allocation. This allocation will be adjusted based on actual test scores reported as Add ON FTE Survey 5. Florida statute requires the IB allocation be used for instructional staff, materials, and to fund bonus payments for IB teachers. Schools will be responsible for exam costs, and unexpended funds will carryover (based upon carryover rules) into the following school year. IB funding and expenditures will be coded to Functional Area ****630600000000.

Budget Amendment Calendar

(Excludes Workforce Education Programs)

September 12
January

Preliminary budget adjustments based on Benchmark FTE Data
Final budget adjustments based upon State October FTE Data

Schools must correct all Invalid and Null FTE prior to close of state processing. = Any Invalid or Null FTE not corrected by the final close, will result in loss of FTE funding. Budget adjustments will be based on the state's final recalibrated FTE reports, and will include reductions for any FTE in error.

Budget Adjustment Periods (excluding Behavior Change, Adult High Schools and ESE Centers)

Benchmark Day

Schools will amend their budgets based on their Benchmark FTE reported on the C13 Panel in TERMS. Benchmark officially occurs on the Monday, or first school day thereafter, following the Labor Day holiday.

October FTE-State

Budgets will be revised based upon the State October FTE data School budgets will be fixed at the time the October Budget Adjustment is completed unless the February Rebudget Criteria is met (see below).

February unweighted FTE will be projected using actual October unweighted FTE information. Projected February FTE will equal October unweighted FTE multiplied by each school's individual projection factor (School Budget Projection Factors, **Attachment D**).

February FTE - State (Rebudgeting Criteria)

Elementary Schools will rebudget in February if a school has a 5% reduction in actual 180-day UNWTD FTE from the October Budget Amendment. Also, schools will rebudget if there is an increase of 10 or more WTD FTE in actual 180-day WTD FTE. In either of these cases, schools will re-budget after the February survey based on actual October and February information.

ESE Budget Validation

The projected ESE budget validation is designed to assist Principals in gaining a global picture of ESE funding at the school level. During the Projected Budget process in SAP BI-IP, the Projected ESE Budget Validation will be available to schools. The information will be reviewed with the Executive Director of Exceptional Student Learning Support (ESLS) and ESLS Curriculum Supervisors. The ESE Budget Validation is intended to provide general guidance regarding the level of support for ESE program

ESE Cost Factor Adjustment (Programs 251 and 261)

The ESE Cost Factor Adjustment for Program 261 has been discontinued for all schools. See Gifted Funding below.

The ESE Cost Factor Adjustment for Program 251 has been discontinued for all schools except ESE Centers. This funding has been realigned to categorically fund Speech Language Pathologists and ESE Support Facilitators. ESE Center Schools continue to be categorically funded the difference between the cost factor of 1.330 and the local weight of 1.500 for Programs 251.

Exceptional Student Education (ESE) Special Programs

Special Program sites are established based upon the growth of the targeted population. Sites are selected by the ESLS Department in collaboration with the Cadre Directors and school principals at potential sites. This funding will be revised at the time of the Benchmark, October, and February adjustment periods. Based on the February FTE survey, selective schools will be funded for positions (based on start date) and other expenses (materials, supplies, etc.).

Funding details for the ESE Special Programs are listed on the following pages.

PreK AM/PM	Inclusion Educational Support Professionals (ESP) - Supported K	Autism Spectrum Disorder (ASD)
PreK B Specialized	Deaf & Hard of Hearing-PreK	Emotional Behavior Disorder (EBD)

ESE Specialist

Schools with less than 300 ESE weighted FTE (including gifted) will be funded a 50% ESE Specialist position. Schools with more than 300 weighted FTE will receive 100% ESE Specialist position. Elementary schools with less than 300 ESE weighted FTE and with 4 or more ESE Special Programs Classes (including PreK) will be funded an additional 50% ESE Specialist position from Medicaid or Additional Support General Fund. Medicaid funds will be placed in Functional Area **5250691060000000**. Funding is based upon prior-year October FTE.

ESE Speech/Language Pathologist (SLP) Funding

SLP Positions for AM/PM Pre K Classrooms are funded separately through ESE Special Programs. Beginning in 2020-21, Speech/Language Pathologist positions are funded categorically. An FTE Estimator software provides funding recommendations based on lines of service in student Individual Education Plans. Funding will not be based on warm body caseload.

ESE Programs & Services

ESE Support Facilitation

The ESE Support Facilitation Model provides support to students with disabilities (SWDs) in the general education setting by an ESE certified teacher. These supports are based on individual student needs that are documented within the lines of service on each student's Individualized Education Plan (IEP). Categorical funding recommendations are provided by an FTE Estimator software based upon lines of service in each student's Individual Education Plan. Slight adjustments were implemented to provide needed personnel resources back to schools to address Support Facilitation needs and instruction. Any balance of available funds generated by lines of service for support facilitation after hiring staff are to be utilized to support students with disabilities. These funds are to be used toward instructional, ESP and/or pool sub salaries. Any remaining funds will require collaboration of the school-based principal, Cadre Director, and ESLS Division. Funding will not be based on warm body caseload.

ESE Support Facilitator ESP Suggestions

Partial funding over one or two positions may be used to hire one ESP dedicated to supporting students receiving support facilitation at your school. The cost of the ESP would be a .33% position or schools may use the partial funding above the ESLS Department recommendation to increase a percentage of their support facilitator.

Role of the Support Facilitation ESP

- Assist the support facilitator in monitoring and supervising small group instruction
- Assist support facilitator with the behavior or independent functioning needs of students in a group
- Escort students to and from support facilitation groups
- Assist with push in services in a general education classroom
- Assist with data collection

ESE Contracts

ESE Contracts with outside agencies will be funded in accordance with contractual obligations

Gifted Funding

Program 261 was created for local use to distinguish Gifted from ESE (Disabled). Gifted Revenue is the sum of Total Instructional Allocation (IA) for Gifted FTE. Beginning in 2020-21 the cost factor for Gifted programs is increased from 1.33 to 1.50 to eliminate the need of a separate ESE Cost Factor Adjustment (Program 261). Schools are required to budget 90% of gifted revenue to the Gifted Program. Funds are to be allocated to Functional Area **5260652600000000**.

Inclusion Educational Support Professional (ESP)

Inclusion ESPs are approved to support students with disabilities (SWDs) entering Kindergarten who have been identified as requiring additional adult support in order to navigate the general education Kindergarten classroom. Under the direction of the classroom teacher, the Educational Support Professionals (ESP) will provide academic, behavioral, independent functioning, and social emotional supports throughout the school day in an effort to maintain inclusive environments. All Elementary sites and selected Behavior Change Centers will be funded a minimum of 1 inclusion para to assist with SWD's entering Kindergarten.

ESE Programs & Services

Speech/Language Material & Supplies

Beginning the 2020-21 school year, schools will receive material & supplies funding to cover the cost of assessment material for speech/language therapy services. This funding replaces Speech Zone dollars. These funds will be placed in Functional Area **5250000000000000**. Funding and selected schools are reviewed annually by the Exceptional Student Learning Support Department (ESLS).

Transition Deferment Programs

Transition Deferment programs are available to students who **have met all High School graduation requirements** and demonstrate the need to continue in Broward County Public Schools to acquire specific skills in the areas of academic, employment and/or independence with continued support and services according to their Transition Individual Education Plan (TIEP). The skills learned in their chosen deferment program will help students achieve their post-secondary goals. The following programs are funded through ESE Special Program models.

PASS Program

Post-Graduate Alternatives for Secondary Students (PASS) is a community-based transition model located at most high schools throughout the district. Students participate in curriculum that emphasizes functional academics, social skills, life skills, community-based instruction, and work experience.

Work Based Learning Experiences (WBLE) Programs

(Business-led Work Based Learning Experiences) Project Work Opportunities from Within (WOW) and SEARCH are total immersion transition programs in host businesses where students participate in six to eight-week rotations in several departments learning vocational, employability, life and soft skills. A certified teacher and job coach are always onsite. Each student works with a mentor in his or her respective department. Project WOW is housed at four Hilton Hotel locations and the Riverside Hotel.

Work-Based Learning Experiences (WBLE) Program

(Business-led Work Based Learning Experiences) offered at Atlantic Technical College. This program is for students interested in paid employment but have not had experience working. The structured on-the-job training begins on campus, so the student can experience tasks within commercial food/restaurant skills, clerical skills, facilities service, and groundskeeping. Once the student's skills are developed skills and interests are identified, a rotation of job experiences are scheduled off campus at local businesses for short term internships. Students participating in WBLE at Atlantic Technical College can have the opportunity to earn entry level industry certifications to add to their employment resume.

ESE Programs & Services

Adult Curriculum for Community Employment and Social Skills (ACCESS)

Adult Curriculum for Community Employment and Social Skills (ACCESS) is a community-based transition model in which students work as part of a team to develop a transition plan that will help them build their independence in the world of work and within their community. Students are given the opportunity to train in a variety of industries to determine their strengths and interests which may lead to paid employment. As part of the ACCESS curriculum, students also work to build their social communication skills, daily living skills and leisure skills with the purpose of building a well-rounded adult life. Some students participating in ACCESS can earn an entry level industry certification based on worksite requirements.

Career Placement

Career Placement is a transition model located at Atlantic Technical, McFatter, and Sheridan Technical Colleges. Students in this program must have an interest in paid employment, demonstrate readiness to work, and have the desire or ability to navigate the community independently and safely. This program focuses not only on the student finding and maintaining paid employment, learning to develop a budget based on income, and developing life skills, but also on creating a career plan which may include further education and/ or training. Students are assisted in identifying their next step. Some of the students participating in Career Placement will have the opportunity to earn entry level industry certifications based on their worksite requirements.

College Prep Program

Is offered at Broward College South Campus for students wanting academic intervention along with a college experience to increase the necessary skills for a successful transition into college. This program is based out of Nova High School.

Best Practice of Scheduling Electives

IDEA states that to the maximum extent appropriate, students with disabilities, including students in public or private institutions or other care facilities, must be educated with students who are not disabled, and special classes, separate schooling or other removal of students with disabilities from the general educational environment may occur only when the nature or severity of the disability of the child is such that education in regular classes cannot be achieved satisfactorily even with the use of supplementary aids and services.

Technical Assistance Paper: Least Restrictive Environment Considerations Related to Individual Educational Plans A1 and [Title 20, United States Code (U.S.C.), section 1412(a)(5)(A)]

Indicator 12 of the School Level Assessment in Best Practices for Inclusive Education asks that all SWD's have the same opportunities as students without disabilities to participate in all school-sponsored, non-academic, age-appropriate activities, including electives. Based on this indicator, the following evidence can be used as best practices for scheduling SWD's in elective classes.

- All SWD's have access to all school facilities and non-academic activities.
- Supports, such as adaptive equipment, band instruments, and communication devices are provided so that SWD's can fully participate in the same activities as those students without disabilities.
- Athletic coaches include students with disabilities in the same activities as those without disabilities.
- Case managers monitor the participation of SWD's in non-academic activities.
- Ability awareness and diversity training is provided to all students in the school.
- Same-age peers provide natural supports to SWD's, as appropriate, to facilitate social interactions.
- Families or students with significant cognitive disabilities receive information about all non-academic activities.

ESE Programs & Services

Best Practice of Scheduling Electives

Indicator 24 of the School Level Assessment in Best Practices for Inclusive Education asks that there is a school wide approach to facilitate positive, interdependent relationships and social responsibility among all students with and without disabilities across all general education and natural contexts. Based on this indicator, the following evidence can be used as best practices for preparing the learning environment in elective classes for SWD's.

- Teachers differentiate instruction to allow multiple means of representation, expression, and engagement.
- Lessons are presented in visual and oral formats.
- The student responds using eye gaze, choice cards, and/or gestures.
- Appropriate response time is given for SWD's to participate.
- Instructional technology, matched to the needs of individual students, is effectively used for instruction in all classrooms.
- Teachers and support personnel use assistive technology for students who need it, including low-tech strategies and high-tech communication systems and software.
- Teachers allow students to respond orally on assessments.
- Teachers tier assignments/assessments.
- Teachers involve students with disabilities by regularly using instructional strategies that support more complex thinking rather than watering down the curriculum.

At the Elementary Level

- Students in special programs should whenever possible be schedule with grade level peers.
- Classes with multi grade level should be scheduled in specials with the grade level that best matches the grade level composition of class.
- Supports and strategies used in the classroom must be provided in the specials class
- Appropriate supervision must follow the class or student to specials.

At the High School Level

Student course progression should be considered and monitored as part of the scheduling process for elective classes. For SWD's whose placement is in the **SVE Classroom**, the following considerations should be made.

- Follow same course progression as non-disabled peers. (For example, incoming ninth grade student are expected to enroll in Physical Education. SWD's in SVE would enroll in the same course.)
- All electives courses should be an option and can be used on a rotating basis in order to utilize a variety of instructors.
- Match electives with student interests or skill sets such as, culinary arts, computers, music, drama.
- Students who are able to be more independent could enroll other electives such as ROTC, Child.
- SVE classroom teachers and electives teachers should have ongoing communication on how to best meet the needs of their students.
- Schools should be mindful of the number of students within each elective class while considering the needs of complex learners.
