Telehealth in partnership with families from the comfort of home or school

Hazel Health knows a student's family is their first teacher.

We believe what families know about their students is vital to providing care. That's why we work with families to ensure the best outcome for their students.

Your student will never receive care without your consent

How we partner with families

Parent permission

With your permission, your child will have access to Hazel's care team. You only need to complete the consent form one time for each child.

Care at no cost to families

By partnering with your school, Hazel visits are at no cost to your family.

Visits from home

From home, your child can connect with a Hazel provider or join their scheduled therapy appointment.

Visit involvement

You can participate in your child's visits virtually, from home or from work.

Care coordination

Get prescriptions sent to your pharmacy or recommendations for a local provider.

We provide care via any tablet, smartphone, or computer connected to WiFi so families don't have to leave home or miss work to get their students the care they need.

**Medical care available M - F
from 7:00 am - 5:00 pm**

Our medical providers help with cold symptoms, headaches, stomach pain, minor injuries, and more.
