

### **Curriculum Program Specialist**

Our Curriculum Program Specialist support schools in meeting the academic needs of learners and working collaboratively with the school site on how to meet state expectations (standards and access points) while monitoring goals, implementing accommodations, and exploring school site data to strategically plan professional development and data driven instruction. Our curriculum team supports teachers with providing specially designed instruction across all settings.

The IEP team use student data and progress to make a curriculum decision regarding whether a student will be taught on Standards or Access Points. To learn more about each curriculum you can access the links below.

### **Behavior Program Specialist**

Our Behavior Program Specialist support schools in meeting behavioral need of learners which includes supporting Behavior Intervention Plans, assisting schools with Functional Behavior Assessments, providing trainings on zones of proximity, supporting teachers with positive behaviors, visual schedules, de-escalation strategies, and zones of proximity within specialized classrooms.

### **Assistive Technology Program Specialist**

The Assistive Technology Program Specialist works collaboratively with schools to support students who have or will need Assistive Technology. This is inclusive of supporting schools with the AT evaluation process, supporting schools with new devices, changes in devices, and training staff on how to use the devices. The Assistive Technology Program Specialist also provides school sites with access to training modules through a collaboration with the Florida Diagnostic & Learning Resource System (FDLRS).

### **Speech Language Pathologist Program Specialist & Related Services**

The Speech Language Pathologist Program Specialist works collaboratively with schools to support students who receive direct and/or related therapy in the areas of speech and language. Speech Language Pathologist support the school site SLP as well as contract SLP's in providing services to students.

### **Field Coach**

The Field Coach supports ESE Specialist at the school site with the EdPlan platform, monitoring IEP due dates, working collaboratively with the ESE Specialist in using academic and behavioral data to guide IEP decisions. The Field Coach's support is individualized to meet the needs of the ESE Specialist and the students at the school.

**Compliance Program Specialist**

Our Compliance Coach supports school in ensuring that schools are compliant with district, state, and federal statutes. The compliance coach works exclusively with the ESE Specialist and the school site administrators to ensure that students are accessing their education as speculated on their IEP.
