## Grant Development Process and How Grants Administration Can Help You

- |          |   |
|----------|---|
| <b>1</b> | GA can help to develop your idea by facilitating a group brainstorming meeting, conducting a needs assessment and creating a program plan.                    |
| <b>2</b> | GA can help to identify funding opportunities through the Grant Funding Newsletter, cultivating donors, and providing individual research.                    |
| <b>3</b> | GA can work with you to ensure a timely submission, seek School Board review and approval of the grant, and provide editing and writing support.              |
| <b>4</b> | GA can help set-up the grant account, support the grant agreement review and approval process, provide donor stewardship, and support media outreach efforts. |
| <b>5</b> | GA can help you to manage the award by supporting the reporting process.  |
| <b>6</b> | If applicable, GA will liaise with the Accounting & Financial Reporting Department for assistance with the final financial report.                            |

## Update on Grant Contract/Agreement Review and Approval Process

All grant applications **MUST** support the District's Strategic Plan Goals.

## Good News!

### Thank you, NFL Foundation, NFL Players and the Miami Dolphins Foundation!

Research shows that students who have home computers perform better academically and take higher level courses. Yet, a report from the Corporation for Public Broadcasting ("Connected to the Future") suggests the Digital Divide has not yet closed and may potentially widen for some students. As technology becomes more important in the lives of students, particularly during the COVID-19 pandemic, strategies to address the "digital divide" in students' homes and schools become increasingly more critical. Through a generous grant of \$100,000 from the NFL Foundation, NFL Players and the Miami Dolphins Foundation, BCPS will provide 1,500 homeless students with both a hotspot and laptop to use for their digital needs.

### JP Morgan Chase Expands Support to BCPS

JP Morgan Chase's goal is to help young people attain the credentials that position them to compete for skilled employment opportunities and put them on a successful career pathway. In the past six years, BCPS has utilized grant funding from JP Morgan Chase to support work-based experiences for youth in 11th and 12th grades. A new grant from JP Morgan Chase of **\$332,500** will support Talent Forge foster the establishment of a locally resilient and sustainable talent pipeline for Broward County. Talent Forge will implement a talent development strategy with local employers inclusive of businesses, local governments, and non-profits focused on sustaining and expanding work-based learning experiences including paid internships for BCPS high school students. The grant also supports pre-apprenticeships and apprenticeships for youth ensuring the preparedness and depth of a local workforce bench positioned to meet the needs of quickly evolving and emerging industries.

JP Morgan Chase also awarded BCPS with a grant of **\$125,000** to support internship experiences for students enrolled in Career Technical Education (CTE) education pathways including career-themed academies in the following areas: engineering, business and finance, hospitality and tourism, health science and information technology. Through this work students are exposed to rigorous, industry-validated curriculum that incorporates current industry standards and practices while fostering customer service, employability skills and social capital. Thank you, JP Morgan Chase, for your continued support! Congratulations to James Payne, Task-Assigned Director - Career Technical Adult and Community Education (CTACE), Lucille Flynn, Curriculum Supervisor – CTACE and team for your continued grant success.

### The Frederick A. DeLuca Foundation Supports

Thank you to **The Frederick A. DeLuca Foundation** for supporting the Broward Education Foundation (BEF) and BCPS with a grant of **\$495,682** to support the Technology Empowered Agriculture (TEA) Garden program. The TEA program incorporates technology used in the agriculture industry, such as sensors, artificial intelligence, data collection and sharing over the internet, and drones. The TEA Garden will be used to create food forests and integrate schoolyard edible gardening in the classroom, the cafeteria, and afterschool programs. The TEA Garden will also engage youth in real-world, culturally relevant STEM project-based learning opportunities that will create environmentally sustainable solutions to environmental challenges. Congratulations to Coco Burns, Program Director – Broward Education Foundation and Lisa Milenkovic, STEM+CS Curriculum Supervisor – BCPS Applied Learning department on your grant success.

## Walmart Thank You Walmart

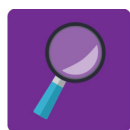

Walmart believes that strengthening local communities creates value – for our business as well as society. Each year, Walmart U.S. stores and clubs award local cash grants ranging from \$250 to \$5,000. Every school within 25 miles from a store or distribution center is eligible to apply. [CLICK HERE](#) for additional details. Congratulations to Judith Hinds-Henry, Teacher – Coral Glades High School for receiving **\$1,000** from Walmart to purchase 150 copies of *Mice and Men* by John Steinbeck. Through this grant students gain a better understanding of equity and inclusion while building important reading skills. Congratulations also to Principal Shawn Allen Assistant Principal and Marilyn Guirand at Lloyd Estates Elementary School on your **\$1,000** grant from Walmart to provide students with incentives and awards for good work, behavior, and participation; balls and sports equipment for use during recess and physical education classes; and supplies and materials to be used in a Science academic bootcamp.

## Several Schools Receive Grants for Gardens

The **Florida Farm Bureau Federation** and the **Broward County Farm Bureau** work to promote local agriculture through better cultural and research practices, product quality improvement, improved marketing methods, and market stabilization. They also provide educational programs in schools and grants for school-based agricultural activities including edible and teaching gardens. [CLICK HERE](#) to learn more about the Florida Farm Bureau and the Broward County Farm Bureau. Thank you, Florida Farm Bureau and the Broward County Farm Bureau, for supporting BCPS students during the 2021-2022 school year at:

- Elementary Schools: Liberty, Flamingo, Pine Ridge, Central Park, and Eagle Point;
- Middle Schools: Plantation, Lyons Creek, and Silver Trail;
- High School: McArthur and Monarch

## Opportunity Spotlight

Good Sports gives all kids the lifelong benefits of sport and physical activity by providing equipment, apparel and footwear to those most in need. Through the generous support they receive from a variety of funders, equipment manufacturers and distributors, Good Sports can provide a diverse range of sporting equipment, footwear and apparel to many different community organizations on a year-round basis. ## Grant Writer in Action

**Name:** Laura Glick

**Position:** Innovative Programs Magnet Coordinator

**Years of service:** 25

**How many grants have you been awarded and what is the total dollar amount awarded?** At least 10 and over \$450,000

**Which grant-supported project is your favorite?** Turnaround Arts Grants

**What is your process for filling out a grant application?** My process for filling out a grant application is to really know the schools needs for the funding. Also, to make sure the grant dollars impact students (either achievement, performance, behavioral, and/or attendance). When we look

Turnaround Arts Professional Development Opportunity with Laura Glick in pink

at the grant application, I make sure I am meeting with the Leadership team along with Administration to figure what the ask is and the necessary budget to achieve the maximum goal of the grant.

**Do you have any grant writing tips?** Make a timeline of when you will complete certain sections of the grant and, if possible, have a grant writing buddy. For me, this is a key component to successfully writing the grant request also:

- Don't over think it! Get to the point of what your request is and give as many details as possible.
- Be clear about your budget request. Make sure that your budget matches your project request.
- Once you receive the grant, make sure you send the foundation your progress in achieving your goals sending measurable outcomes to the funder.
- One last thing, believe in the project you are writing the grant for. For me, I think it is super important for our students to have opportunities we cannot provide in the school's general budgets (performing at the Kennedy Center in Washington, D.C., sending teachers to arts integration professional development in other states, bringing in National teaching artists, etc.). If you believe the work is important then funder will see your passion and provide support.

Once you get the funding, you really can see the positive impact on teachers and students. So, go for it!! It is definitely worth the effort.

## Grants in Action

Grants are a powerful tool to enhance teaching and learning throughout our District. Please take the opportunity to have your grants showcased in one of our upcoming newsletters by submitting your photos with the subject line Grants In Action, and email your action photographs of activities associated with grant awards to [grants@browardschools.com](mailto:grants@browardschools.com). This is another opportunity to acknowledge our grant donors for their support and to showcase the innovative learning experiences developed by our school-based staff!

## Catch The Excitement!

## Tip for the Day

### TIP for the Day: Tips for Writing a Winning Proposal

Fritz, Joanne. "Here Are Some Helpful Tips on How to Write a Winning Grant Proposal." *The Balance Small Business*, The Balance Small Business, 11 May 2021, <https://www.thebalancesmb.com/how-to-write-a-grant-proposal-2501980>. Excerpts below. Click on the imbedded links for additional information and examples.

**Grants**, to be successful, should be part of your overall [fundraising plan](#), have a [calendar](#), and a dedicated grant writer, either on staff or [contracted](#). Grants come from a variety of sources such as a [foundation](#), a [corporation](#) or a [government](#) agency, but most require similar information. There are also at least [three different types of proposals](#), ranging from a letter to a full-blown proposal.

**Executive Summary** The [executive summary](#) comes after your cover letter. It helps the grantor to understand at a glance what you are asking. Aim to be complete but brief. The summary gives a taste of the proposal to come and should entice the reader to keep going.

**Need Statement** The statement of need is the meat of your [grant proposal](#). You must convince the funder that what you propose to do is essential and that your organization is the right one to do it. Use your expertise to explain it, but make it simple to understand.

**Goals and Objectives** Your goals and objectives explain what your organization plans to do about the problem. State what you hope to accomplish with the project (goals) and spell out the specific results (objectives) you expect to achieve. Brush up on [SMART objectives](#).

**Methods, Strategies or Program Design** Walk the grantor through exactly HOW you will achieve the [goals and objectives](#) you've set out earlier. Be as detailed as you can with a timeline and specifics about who will do what and when.

**Evaluation Section** Funders want to know that their dollars had an [impact](#). So decide now how you will evaluate the [outcomes](#) of your project. Include what records you will keep or data you will collect, and how you will use that data.

**Project Budget** Attach a short budget showing expected expenses and income. The expenses portion should include personnel costs, direct project costs, and administrative or overhead expenses.
