1. All students scheduled for more than 60% of their day in one of the Special Program classrooms need a “Y” in appropriate field. Each student should have only one “Y” marked in the field.
2. These fields are for ESE Special Program classroom(s)- **NOT** student’s exceptionality.
3. The ESE Specialist and IMT must review students scheduled in ESE Special programs, and update the A23 Panel in TERMS accordingly. These fields are for Budget purposes ONLY and do not need to wait for student’s IEP meeting.
4. School budgets with ESE Special Program FTE not properly identified will be adjusted based on incorrect data and are at risk of losing program funding.

5. The “New” A23 Local Program codes G01-G08 have been created to identify students enrolled in ESE Deferment Programs. Codes entered in the TERMS A23 Local Program panel field, will automatically populate the Defer field in TERMS A23 Special Programs panel with the corresponding numbers 1-8.
