

SAT Participation Increased by

37

Percentage points when SAT Day was introduced in 2016

- The first SAT School Day was held in 2016.
- Overall participation increased from 50% in 2015 to 87% in both 2016 and 2017.
- **The participation gap was virtually eliminated** for all groups except for students with disabilities, whose gap dramatically decreased.

SAT Participation Among 11th Grade Students*

*Note: 2015 represents any SAT taken during the school-year.

SAT Performance

- The overall average scores increased over the two-year period. The Evidence-Based Reading and Writing (EBRW) score went from 492 in 2016 to 503 in 2017, and the math score increased from 477 in 2016 to 481 in 2017.
- Just over half of 11th grade test takers met the college readiness benchmark for EBRW, and just under a third met the benchmark for Math in both years.

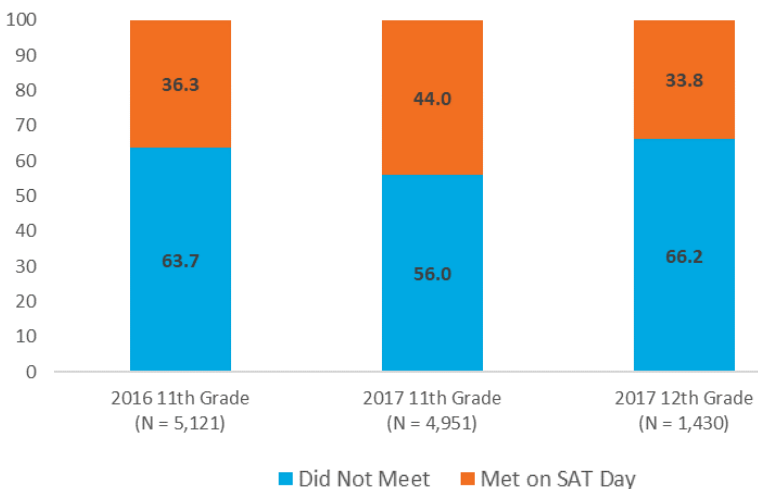

2,664

Students not meeting the FSA ELA graduation requirement achieved a concordance score on SAT School Day 2017

Over one-third of all students taking the SAT to achieve concordance were successful:

- 36% of 11th graders in 2016
- 44% of 11th graders in 2017
- 33% of 12th graders in 2017

Percent of Students Achieving a Concordance Score on SAT School Day
