

## SERVICE LEARNING

Students in the Montessori Magnet Program at Sunrise Middle School are required to complete 5 hours of community service hours each quarter. Every student must submit a completed “Service Learning” form and a written reflection to their homeroom teacher regarding what was learned by this experience. These two forms must be turned in a week before the end of the quarter or by deadline determined by your student’s teacher. Upon completion and submission of these forms, students will receive a grade for the activity which will be recorded in their Team Elective class. Fifty percent of the grade is based on the community service hours completed by the student and the other 50% of the grade will be based on the written reflection.

It is the parent’s responsibility to research and find a safe location for their child to complete the service-learning hours. We will post opportunities for community service hours on our website as we learn of places looking for students to assist. We encourage parents to research and determine if the location suggested is appropriate for their student, as we are not responsible for any activities/agencies outside of the school campus.

## Community Service
