

STEM+Computer Science

For every student in every school

STEM + Computer Science Vision

- Hands-on STEM and Computer Science through authentic experiences and competitions
- Foundational skills in collaboration, communication, critical thinking, computational thinking, problem-solving and perseverance
- Life ready for future studies and careers in any area, not only those typically thought of as STEM-related

STEM + Computer Science Programs

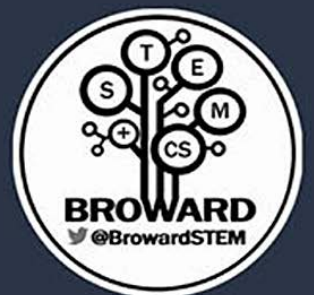

Programs, such as the ones below, require your support to sustain and grow.

- Computer Science
- Engineering and Robotics
- Environmental Stewardship

Broward County Public Schools Applied Learning Department

- Susan Cantrick, Director
- Dr. Lisa Milenkovic, Supervisor, STEM+CS

Current	3 Year Plan	5 Year Plan
 <p>Computer science is offered in >90% of K-12 schools.</p>	<p>Every student K-8 has at least 18 hours of computer science instruction annually, with AP CSP and AP CSA available in every high school.</p>	<p>Computer science is integrated as foundational within core and elective subjects.</p>
 <p>SECME STEM Olympiad and robotics access is available in approximately 40% of schools.</p>	<p>At least 60% of schools will offer access to STEM in the curriculum and through participation in competitions such as SECME and/or robotics.</p>	<p>Every student in every school has access to participate in curricular and extracurricular STEM competitions - including SECME, engineering and robotics.</p>
 <p>>60% of schools are NWF certified schoolyard habitats. <30% of schools participate in environmental challenges such as the How Low Can You Go? or the P3 EcoChallenge.</p>	<p>100% of schools will be certified as NWF habitats, 60% of school participate in environmental challenges annually.</p>	<p>Environmental stewardship is a core culture of 100% of the schools as indicated by participation in at least one environmental challenge annually and integration of environmental stewardship into the curriculum.</p>

For our future
