Welcome to Broward County Public Schools
School Year 2022-2023

August 11, 2022

Location of Meeting: Indian Ridge Middle School

The American School System

Public schooling in the U.S. is free and funded through tax-payer dollars and money from local, state, and federal governments. While the federal government sets some standards and regulations for public schools, they are mostly regulated by each individual state.

- There is no national structure, curriculum or governing law; all laws and policies are set and enforced by the 50 state governments and over 14,000 local school districts.
- The US Department of Education is responsible for federal education programmes of all types and levels. Its role in education is limited by the US Constitution and by federal statutes. It does not function as a governing body, but operates in cooperation with state and local authorities.

The American School System

- Public Schools: governed by local school districts and their boards. Policies and regulations tend to be uniform across all schools within a district.
- Private schools: governed by self-appointed boards of trustees and raise their own operating incomes without state or local government support.

- **Charter schools**: public schools established by parent groups, communities or organisations to fulfil specific needs, serve special populations or adhere to special curricula or institutional practices. They receive public funding and support but are freed from school district regulations and may enrol students from anywhere in a district. Charter schools operate via a performance agreement, or charter, that sets forth the mission, program, student population, and methods of evaluation and assessment.

The American School System

- **Magnet schools:** are regular public schools that have a special educational theme, mode of instruction, subject emphasis, or other characteristic and are permitted to enrol students from across the entire school district rather than being confined to normal school attendance boundaries. Magnet programs have similar features but are located within regular public schools rather than being separate schools. The legal purpose of magnets is to promote equal access to unique educational opportunities by minority students who would otherwise be confined to regular schools based on residence.

Education System in the USA -

Home schooling:

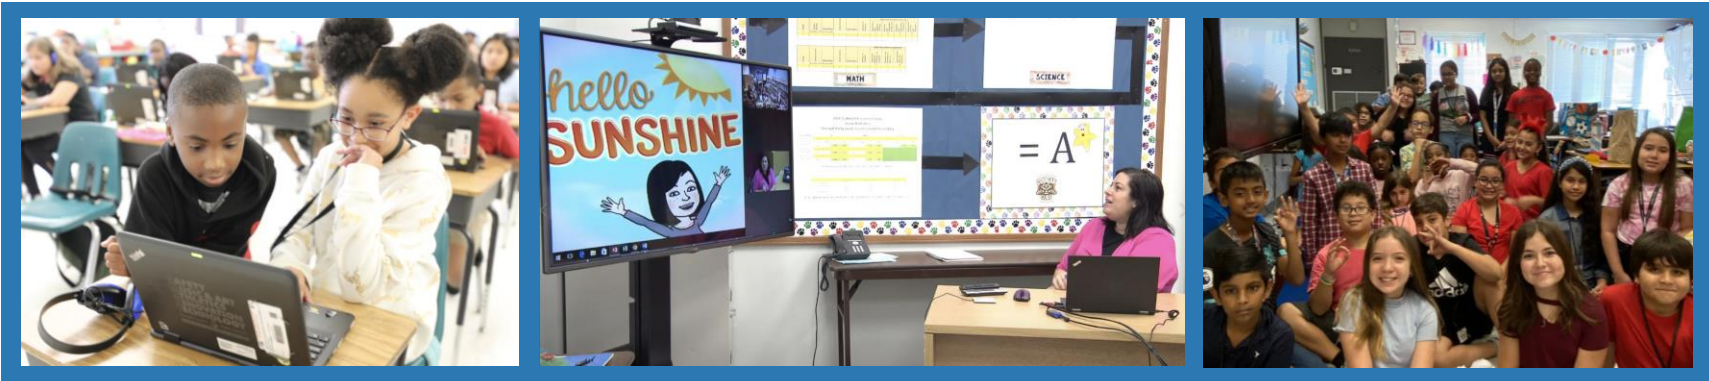

- Over 1 million students receive home schooling annually.
- It is legally recognized and regulated in all U.S. states.
- It is usually performed by parents and there is an extensive array of services, materials, and resources to assist homeschooling parents and children.
- Qualified home school graduates are recognized as school graduates by the states and may be admitted to U.S. higher education institutions.

Transportation

There are just over 1,000 school buses used by Broward District Schools on daily routes, transporting more than 73,000 students to and from school, and driving more than 16 million miles to 234 locations. This department collaborates with all schools to communicate transportation information to students and parents.

Broward School Board Policy 5300 allows for a student otherwise not eligible for transportation to ride if there is a seat available on route (s) that serve the school. After October 1 of each school year “Empty Seat Applications” are processed through the student’s school of attendance.

All eligible students needing bus transportation for the upcoming school year MUST register for bus assignment. Use the webpage below to register for a bus assignment for the next year. Private Schools, Charter School, and new registering students entering the Broward County Public School (BCPS) system, that are eligible for transportation can register starting June 13, 2022.

Newly enrolled students to Broward County Public Schools, eligible for transportation, need an assigned student ID prior to registering to ride. Please contact your school to get a student ID. It could take several days for your student information to populate in the transportation database (approx. 3-4 days).

Eligible students registered by July 15th will be guaranteed a bus for the first day of school.
