

WELCOME TO LEAPS!!

Leaps is a free online instrument providing comprehensive lesson plans and interactive multi-modal assessment tools. Leaps is a research-based, practical program that improves behavior, grades, and attendance in K-12 education, whether the interventions are needed at Tier I, Tier II, or Tier III.

With a library of lessons and powerful, interactive assessments tools, Leaps provides interventionists with customized, actionable plans to improve behavioral, social and emotional skills for youth, including the content, benchmarks, and progress reporting for the positive behavioral components of Response to Intervention (RTI.) The trackable data points are reportable per individual student or can be rolled up to a classroom, program, school, or the entire district.

Leaps is an easy to use, thorough tool for you to use for prevention or intervention with your students.

How It Works

Contact us and subscribe to Leaps

Educators complete registration on school's personal Leaps website

Gain immediate access to Lessons and Assessment Tools in your Leaps account

Utilize our free online training

To register for your Leaps license:

1. Log onto www.goleaps.com/browardfl
2. Complete the required information including your school email address and personal password
3. Hit submit and in a few minutes you will receive a confirmation email
