Guidance for Suite360 Intervention Curriculum
Code of Student Conduct Violations**

The School Board of Broward County, Florida has approved the Evolution Labs: Suite360 Intervention curriculum (a Navigate360 company) for schools with grades K-12. Schools may use the resource as a prevention curriculum in individual classrooms. ***However, when a student has committed a violation of School Board Policy 5.8, Code of Student Conduct, schools are expected to issue an applicable Suite360 lesson for the incident violation for completion during the student's assignment to in-school suspension, alternative-to-external suspension, or external suspension.***

The matrix below offers suggested lessons students can be assigned during the suspension period, but schools maintain full discretion to assign a lesson they deem to be more appropriate based on the totality and nuance of the circumstances. School-based administrators may elect to manage the assignment of the lesson(s) in any manner they deem appropriate, during the student's suspension period. This includes, but is not limited to:

- designating at least 2 staff members to be responsible for all student assignments schoolwide
- elevating selected support staff and/or paraprofessionals to assign student lessons
- requiring administrators to assign student lessons upon issuance of a disciplinary action

Schools may assign the lesson(s) to students for:

- independent completion
- independent completion with instructional reflection support

School-based staff and students may access Suite360 via the Single Sign-On/Clever dashboard. For technical assistance, schools may contact Navigate360 at Tech@navigate360.com or call the Navigate360 Support Line at 1-330-661-0106. For additional support or usage guidance, contact the School Climate & Discipline Department at 754-321-1655.
