- A teacher gradebook monitors the lessons each student is assigned along with the outcomes.

Why would we use Suite360?

- Suite360 can be used as a **preventative program** for ALL students.

- Proactive lessons encourage and support skills such as:
  - Being a good listener
  - Building relationships
  - Honesty & Integrity
  - Decision making

- These skills assist students to not only be better students, but successful citizens.

As an intervention and restorative practice for students who commit infractions:

- Suite360 provides social/emotional/behavioral **interventions** for assigned students, turning discipline into a positive learning experience.

- Digital lessons are assigned for specific incidents and are designed to be impactful to reduce the likelihood of repeated misbehavior.
