Volume 02, Number 35 FLORIDA STANDARDS ASSESSMENT (FSA) BEGINS April 29<sup>th</sup> –May 3<sup>rd</sup>, 2019

**High Stakes (FSA) Testing are here!**

The next couple of weeks are significant determinants of schools' academic progress via the accountability process. Every program, every iota of instruction, every intervention strategy that we have utilized will come down to how well our students perform on the test. A school is judged, not by a pretty campus or how awesome the personnel are but by how well students are performing on state tests. Even though it's a 3-5 test, the foundational skills instilled in K-2 are precursors of what happens in the intermediate grade. You see, it takes the whole village. Many thanks to our intermediate teachers for their dedication and perseverance in teaching to standards mastery in preparing our students for testing and beyond.
