From Ms. Fernandez

Your texts and post may be used against you, both at school and in a court of law. Everyone has disagreements, but if you post things at home that create a fight or disturbance at school, you can be disciplined. Did you know police gather evidence from social networking sites to charge people with computer crimes? If you don't think before you post, you can be charged with piracy, video voyeurism, fraud, harassment, cyberbullying, or sexting pictures of minors. Don't let your posts be used against you, think before you post.

If you wouldn't say it to someone's face but you'd say it online, what does that say about you? Don't be mean behind the screen. Online harassment and cyberbullying can have real life consequences - for both the person cyberbullied and the person cyberbullying. Think before you post or text others. If you wouldn't say it to someone's face, don't say it online.

Now let's see what Ni-jah has to tell us about today's lunch and weather.

That's it for today. Have a Fantastic Friday. Stay Safe Mustangs!
