

-~-Beginning-~-

Gooooood Morning SILVER TRAIL! This is Mathais coming to you from the WSTM Live studio! Today is Wednesday, March 4th, 2020.

Good Morning! This is Catherine with your announcements for today. The affirmation for today is: I have courage to be myself.

Students, please make sure your ID's are on and visible at this time.

The science question for today is which of the following is not one of the five major physical properties of minerals? Is it A. lust, B. chemical composition, C. streak, or D. hardness (wait 5 seconds). Did you guess? The answer is B. Chemical composition is not one of the physical properties used to classify minerals. The five major physical properties used to classify minerals are luster, hardness, cleavage, streak, and form. There is a separate classification system based on the chemical composition of minerals.

From Mrs. Cannady- Attention all Builders Club Members, we will have another service meeting today from 3:45-5:15 p.m. in room 119 to finish making our dog toys. Please plan to be there!

And now for a commercial break Book Fair)

That's it for today: Have a Wonderful Wednesday Silver Trail!
