Gooooood Morning SILVER TRAIL! This is Lila coming to you from the WSTM Live studio!
Today is Wednesday, February 12th, 2020.

Good Morning! This is Catherine with your announcements for today. The affirmation for today is : Today I will walk faster than my fears and don't let what scares me stop me from living.

Students, please make sure your ID's are on and visible at this time.

Today's science question is: Select the main difference between the three types of rocks: sedimentary, metamorphic, and igneous.

A: The texture of the rocks

B: The age of the rocks

C: How the rocks are formed

D: Where the rocks can be found (Wait 5 seconds)

Did you guess? The answer is C. The main difference between the types of rocks is how the rocks are formed. Sedimentary rocks are formed from small particles of materials, such as sand or pebbles compressed. Metamorphic rocks are formed from changes in heat and pressure under the Earth's surface. Igneous rocks are from magma cooling and hardening.

Broward County Public Schools has designated Friday Feb. 14 as a day of service and love in commemoration of the lives lost at Marjory Stoneman Douglas High School. In an effort to honor the memories of those tragically lost on Feb. 14, 2018. A list of activities and causes these individuals enjoyed is listed. In honor of this lets take a look at a video on believing in wishes.
