

Wilton Manors IB World School

Admissions Policy

All students at Wilton Manors IB World School participate in the Primary Years Programme. Students living within our school boundaries do not have to apply to our program. Students living outside our boundaries apply to our school online, through the district's School Choice website. Students are chosen through a random selection process, based on available seats, as determined by the district.

Wilton Manors IB World School is an Autism Spectrum Disorder Special Programs School. Students are placed in the ASD special program classes based on student need as determined by data collection from their home boundary school and their IEP. Our special programs students participate in the PYP at their academic level.
