

AICE Environmental Management Summer Project

Read 5 articles that discuss the effect the Covid-19 pandemic has had on environmental pollution.

On a separate word document, type your answers to the following questions. Ensure you utilize 12 point font and double spacing. (Times New Roman is preferable)

1. Discuss the article, the research done, and its findings.
2. Explain what you found interesting in this article.
3. Suggest possible solutions to any problems that were addressed in the articles.

Follow the template on the below to set up your work. Ensure you label each article and provide the URL.

A tip for keeping yourself organized is to make a bookmark folder in your browser for your project. Then, save your articles there.
