Meet Your Awesome Counselors

Meet Your Counselor Ms. Alba Guadalupe

MY STORY:

I was born in San Pedro Sula, Honduras and at the age of six, my family moved to New Orleans, LA. After a few years, we moved to New Jersey, where I completed elementary school all the way up to graduating high school. After obtaining my Bachelor's Degree in Elementary Education and Special Education from Seton Hall University, I began my teaching career at my old high school and continued teaching at Apollo Middle School in Hollywood, FL. I received my M.S. in School Guidance and Counseling from Nova Southeastern University and had the opportunity to work at Ramblewood Middle School and Monarch High School as a school counselor. I have been married to my amazing husband for close to 10 years and have a wonderful 5-year-old daughter, who just started kindergarten this year. I am excited to be part of the ATC family and can't wait to meet all of you!

One of my many favorite quotes is:

October Fun Facts!

October 28, 1886

France presented the United States with the Statue of Liberty. It took 9 years to build and when it was complete in 1885, the statue was disassembled into 350 pieces, shipped to New York City, and reassembled. It took 4 months just to put the Statue of Liberty together again!

The brain is the fattest organ.

The stomach may be our body's fattest part, but the fattest organ is our brain. The brain is composed of nearly 60% fat.

Giraffes have less neck bones than a sloth.

One look at a giraffe and a sloth shows the very obvious... amount of neck on a giraffe compared to the sloth. However, giraffes actually have 7 neck vertebrae, while sloths have 10.

Starbucks flopped in Australia.

Starbucks may be a staple in many countries, but Aussies couldn't care less. Since opening dozens of locations in Australia in 2000, 70% has already closed down, leaving only 23 cafes still operating in the country.
