A PLACE TO LEARN GROW & THRIVE

YMCA AFTERSCHOOL L.E.A.P HIGH PROGRAM Boyd Anderson High School

The YMCA, in partnership with the Children’s Service Council of Broward County (CSC), provides after-school services to 9th and 10th grade students. The program is geared towards offering additional learning opportunities for personal growth and social enrichment. Students will engage in activities that connect to life beyond the classroom (Virtual and or In-person). The program also offers two full-time Success Coaches who will support students, during the day and afterschool, to help them successfully transition to high school, stay on track for graduation and be prepared for life after high school. The program is **no cost to you**. After parents complete the initial registration form, this will be followed by an intake process to determine need and eligibility for the program.

Download the registration form on the school’s website at www.browardschools.com/boydanderson. Completed forms must be saved and emailed back to Annie Callaway (see email below).
