BCPS Launches School Pride and Peace Initiative Events Focus on Celebrating School Pride and Peaceful Learning Environments

Broward County Public Schools (BCPS) is kicking off an initiative to celebrate students' school pride and reinforce a year-round commitment to maintaining peaceful learning environments for all.

The School Pride and Peace initiative was created in response to recent TikTok challenges, which urge students to participate in negative, potentially dangerous, and criminal activities at schools and then post videos of their actions to the social media platform.

Students are asked to take part in activities that promote kindness, express positive messages and encourage responsible use of social media through the District's Think B4U Post program. Examples of activities include school assemblies, door decorating contests, making school pride banners, student volunteer activities, T-shirt decorating, and creating Peace Walls designed with cards created by students with the theme "If you could make one positive change in the world, what would it be?"

Great news! BCL is offering **SAT/ACT Prep** and a selection of **Ready for College workshops** curated for high school students!

This intensive program is comparable to that of an expensive SAT or ACT test-prep course. Online class sessions, which include practice tests and test-taking strategies, focus on four components per subject: fundamentals, technique, recognition/reaction, and timing manipulation.

To build a better understanding of test preparation and the college admissions process, parents and students will be assigned homework. Parents and guardians are encouraged to have their teen attend each session and complete each homework assignment.

Community Emergency Response Team

Cooper City High School has become part of a national network of schools with a TEEN CERT Program. The TEEN CERT program educates students about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, and disaster medical operations.

There is a very good chance that our schools and communities will be on their own for weeks or more following a major Hurricane or Disaster. Using the hands-on training learned in this course, TEEN CERT members will be prepared to help themselves, their families and their school during a major disaster when professional responders are delayed or not readily available to help. TEEN CERT empowers students with life-long emergency preparedness and response skills.
