FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY**

L.E.A.P. HIGH SUMMER SCHOOL PROGRAM @ NORTHEAST HIGH SCHOOL

OVERVIEW

This year the YMCA, in partnership with the Children's Service Council, will be providing in person summer school services to help students transition for the start of the new school year by offering additional learning opportunities for personal growth and social enrichment. The summer will offer opportunities for students to safely reengage and be prepared for the new school year. Students will have opportunity to recover credits, discuss the past year with industry experts and their peers. Utilize the summer to stay on track for graduation through **Credit Recovery**. The program is **no cost to you**, and open to all students interested in taking advantage of this opportunity. Space is limited, so please turn in your registration form and attend the first day.
