Driftwood Middle School places high value on student learning, academic achievement and the overall success of our students. Maintaining a safe and secure learning environment is our highest priority. A unified dress code was voted on and passed by our SAC committee and parents with overwhelming support. In order to ensure the safety of all students attending Driftwood, school uniforms will be enforced for the 2024-2025 school year.

It is important that as parents you support this safety initiative by ensuring that your child comes to school prepared for learning and in uniform every day. We have provided a variety of uniform options that will allow students to select from an assortment of colors and fabrics to wear.

Uniforms with our Driftwood Middle School logo may be purchased/ordered from Carlyn International Corporation with free delivery to the school for pick-up. Online orders are encouraged. You may contact them through their website at <https://www.dazoli.com> for more information. Please refer to the list above regarding acceptable dress code attire.

We appreciate your continued support for our initiatives that set Driftwood Middle School apart as an exceptional institution for education and student achievement.
