Assumption of Risk, Waiver, Release & Hold Harmless
COVID-19 and Voluntary Extracurricular Activities
Summer 2020 and School Year 2020-21

I desire to participate or allow my child(ren) to participate in one or more voluntary extracurricular activities sponsored by the School Board of Broward County, Florida and the Broward County Public Schools (collectively, "BCPS"). The novel coronavirus known as COVID-19 has been declared as a worldwide pandemic and is believed to be contagious and spread by person-to-person contact. Federal, state, and local agencies recommend social distancing and other measures to prevent the spread of COVID-19.

BCPS will conduct certain extracurricular activities beginning in the Summer of 2020 and continuing into the 2020-21 school year, herein after the “Activity”. For the safety of all people involved, participants in the Activity will be required to adhere to all safety protocols and are subject to immediate removal from the Activity if they do not comply. Extracurricular activities are a privilege, and not a right, of public-school students.

In an effort to ensure the safety and wellness of our school community, I understand the importance of students being healthy and safe when they participate in the Activity. By signing below, I agree that I will:

- Perform daily temperature checks in my child(ren) to screen for fever before arrival for the Activity. Fever is defined as a temperature over 100.4 F or 38.0 C. If my child(ren) has a fever, I will not permit my child(ren) to participate in the Activity until he/she has been without a fever for at least 5 days.
- Make a visual inspection of my child(ren) for signs of illness which could include: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea, flushed cheeks, rapid breathing or difficulty breathing (without recent physical activity), fatigue, or extreme fussiness. If my child(ren) has exhibited any of these signs or symptoms, I will not permit my child(ren) to participate in the Activity until he/she has been without signs or symptoms for at least 5 days.
Confirm that my child(ren) has not been in contact with someone who has either tested positive for COVID-19 in the past 14 days or is waiting for test results. If my child(ren) has been in contact with such a person, I will not permit my child(ren) to participate in the Activity until 14 days have elapsed since the time of contact.

Promptly pick up my child(ren) or arrange for pickup if signs or symptoms of illness are present. I understand that my child(ren) are to remain home until illness-free for at least 5 days without the use of medicine.

By signing this document below, I acknowledge and affirm all of the statements above. I also voluntarily assume all risks that I and/or my child(ren) may be exposed to or infected by COVID-19 as a result of participation in the Activity, and that such exposure or infection may result in personal injury, illness, sickness, and/or death. I understand that the risk of exposure or infection may result from the actions, omissions, or negligence of myself, my child(ren), BCPS staff, volunteers or agents, other Activity participants, or others not listed, and I acknowledge that all such risks are known to me.

In consideration of my and my child(ren) being able to participate in the Activity, I, on behalf of myself, as well as anyone entitled to act on my behalf, hereby forever waive, release, and hold the School Board of Broward County, Florida, and its employees and agents harmless from any and all claims, suits, liability, actions, judgements, attorney’s fees, costs, and any expenses of any kind resulting from injuries or damages, grounded in tort or otherwise, that I and/or my child(ren), or my or our representatives, sustain during or related to my child(ren)’s participation or involvement in the Activity.

By signing this document, you are giving up any right to make a claim or file a lawsuit regarding your child(ren)’s participation in the Activity including any claim based on the negligent acts or omissions of School District employees and agents.

Part 1. Student Acknowledgement and Release (to be signed by student at the bottom)

I have read the (condensed) FHSAA Eligibility Rules printed on Page 4 of this "Consent and Release Certificate" and know of no reason why I am not eligible to represent my school in interscholastic athletic competition. If accepted as a representative, I agree to follow the rules of my school and FHSAA and to abide by their decisions. I know that athletic participation is a privilege. I know of the risks involved in athletic participation, understand that serious injury, including the potential for a concussion, and even death, is possible in such participation, and choose to accept such risks. I voluntarily accept any and all responsibility for my own safety and welfare while participating in athletics, with full understanding of the risks involved. Should I be 18 years of age or older, or should I be emancipated from my parent(s)/guardian(s), I hereby release and hold harmless my school, the schools against which it competes, the school district, the contest officials and FHSAA of any and all responsibility and liability for any injury or claim resulting from such athletic participation and agree to take no legal action against FHSAA because of any accident or mishap involving the athletic participation of my child/ward. I authorize emergency medical treatment for my child/ward should the need arise for such treatment while my child/ward is under the supervision of the school. I further hereby authorize the use or disclosure of my child/ward’s individually identifiable health information should treatment for illness or injury become necessary. I consent to the disclosure to the FHSAA, upon its request, of all records relevant to my child/ward’s athletic eligibility including, but not limited to, records relating to enrollment and attendance, academic standing, age, discipline, finances, residence and physical fitness. I grant the released parties the right to photograph and/or videotape my child/ward and further to use said child/ward’s name, face, likeness, voice and appearance in connection with exhibitions, publicity, advertising, promotional and commercial materials without reservation or limitation. The released parties, however, are under no obligation to exercise said rights herein. I understand that the authorizations and rights granted herein are voluntary and that I may revoke any or all of them at any time by submitting said revocation in writing to my school. By doing so, however, I understand that I will no longer be eligible for participation in interscholastic athletics.

I know of, and acknowledge that my child/ward knows of, the risks involved in interscholastic athletic participation, understand that serious injury, and even death, is possible in such participation and choose to accept any and all responsibility for his/her safety and welfare while participating in athletics. With full understanding of the risks involved, I release and hold harmless my child/ward’s school, the schools against which it competes, the school district, the contest officials and FHSAA of any and all responsibility and liability for any injury or claim resulting from such athletic participation and agree to take no legal action against the FHSAA because of any accident or mishap involving the athletic participation of my child/ward. I authorize emergency medical treatment for my child/ward should the need arise for such treatment while my child/ward is under the supervision of the school. I further hereby authorize the use or disclosure of my child/ward’s individually identifiable health information should treatment for illness or injury become necessary. I consent to the disclosure to the FHSAA, upon its request, of all records relevant to my child/ward’s athletic eligibility including, but not limited to, records relating to enrollment and attendance, academic standing, age, discipline, finances, residence and physical fitness. I grant the released parties the right to photograph and/or videotape my child/ward and further to use said child/ward’s name, face, likeness, voice and appearance in connection with exhibitions, publicity, advertising, promotional and commercial materials without reservation or limitation. The released parties, however, are under no obligation to exercise said rights herein.

D. I am aware of the potential danger of concussions and/or head and neck injuries in interscholastic athletics. I also have knowledge about the risk of continuing to participate once such an injury is sustained without proper medical clearance.

READ THIS FORM COMPLETELY AND CAREFULLY. YOU ARE AGREEING TO LET YOUR MINOR CHILD ENGAGE IN A POTENTIALLY DANGEROUS ACTIVITY. Concussion Information
Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can’t see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a “ding” or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

Signs and Symptoms of a Concussion:
Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vacant stare or seeing stars
- Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- Headache or persistent headache, nausea, vomiting
- Altered vision
- Sensitivity to light or noise
- Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo(spinning) or loss of equilibrium (being off balance or swimming sensation)
- Decreased coordination, reaction time
- Confusion and inability to focus attention
- Memory loss
- Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

DANGERS if your child continues to play with a concussion or returns too soon:
Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called “Second Impact Syndrome” where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

Steps to take if you suspect your child has suffered a concussion:
Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child’s coach if you think that your child may have a concussion. Remember, it’s better to miss one game than to have your life changed forever. When in doubt, sit them out.

Return to play or practice:
Following physician evaluation, the return to activity process requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit http://www.cdc.gov/concussioninyouthsports/ or http://www.seeingstarsfoundation.org

Statement of Student Athlete Responsibility
Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson’s-like symptoms, Amyotrophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view “Concussion in Sports” at www.nfhslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

Consent and Release from Liability Certificate for
Sudden Cardiac Arrest and Heat-Related Illness  (Page 3 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

Sudden Cardiac Arrest Information

Sudden cardiac arrest is a leading cause of sports-related death. This policy provides procedures for educational requirements of all paid coaches and recommends added training. Sudden cardiac arrest is a condition in which the heart suddenly and unexpectedly stops beating. If this happens, blood stops flowing to the brain and other vital organs. SCA can cause death if it’s not treated within minutes.

Symptoms of sudden cardiac arrest include, but not limited to: sudden collapse, no pulse, no breathing.

Warning signs associated with sudden cardiac arrest include: fainting during exercise or activity, shortness of breath, racing heart rate, dizziness, chest pains, extreme fatigue.

It is strongly recommended all coaches, whether paid or volunteer, are regularly trained in CPR and the use of an AED. Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date.

Automatic external defibrillators (AEDs) are required at all FHSAA State Series games, tournaments and meets. The FHSAA also strongly recommends that they be available at all preseason and regular season events as well along with coaches/individuals trained in CPR.

What to do if your student-athlete collapses:
1. Call 911
2. Send for an AED
3. Begin compressions

FHSAA Heat-Related Illnesses Information

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body’s natural air conditioning, but when a person’s body temperature rises rapidly, sweating just isn’t enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

Heat Stroke is the most serious heat-related illness. It happens when the body’s temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

Heat Exhaustion is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

Heat Cramps usually affect people who sweat a lot during demanding activity. Sweating reduces the body’s salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

Who’s at Risk?
Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.

By signing this agreement, I acknowledge the annual requirement for my child/ward to view both the “Sudden Cardiac Arrest” and “Heat Illness Prevention” courses at www.nfhslearn.com. I acknowledge that the information on Sudden Cardiac Arrest and Heat-Related Illness have been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.
