## Principal's Welcome Message

Dragon Families:

It is my pleasure to welcome you to the 2020-2021 school year! While we will begin this school in a very untraditional manner, we are looking forward to embarking on this e-learning journey with you. At Stranahan High School, we are steadfast in our commitment to providing the highest quality instruction to our students. Our teachers have been working diligently to prepare themselves to provide our students with an enhanced e-learning experience that will be both structured and engaging.

I am a firm believer that the foundation for our students' success is based upon a strong partnership among students, staff, parents, and community. Now more than ever, active parent participation is essential to our success! I encourage you to take advantage of the many schools and district resources available to help you stay informed. We will continue to communicate with you via various means including our school website, social media, email, and phone calls. It is imperative that we have your most up to date contact information so I urge you to visit our website and complete the Back to School Online Forms as soon as possible.

Our administrators, guidance team, magnet coordinators, and support staff are all here to help support you through the unique challenges that undoubtedly lay ahead. These uncertain times call for us to be kind, patient and understanding with one another. We continue to strive to create an academically challenging yet nurturing environment to ensure our students can achieve their highest potential

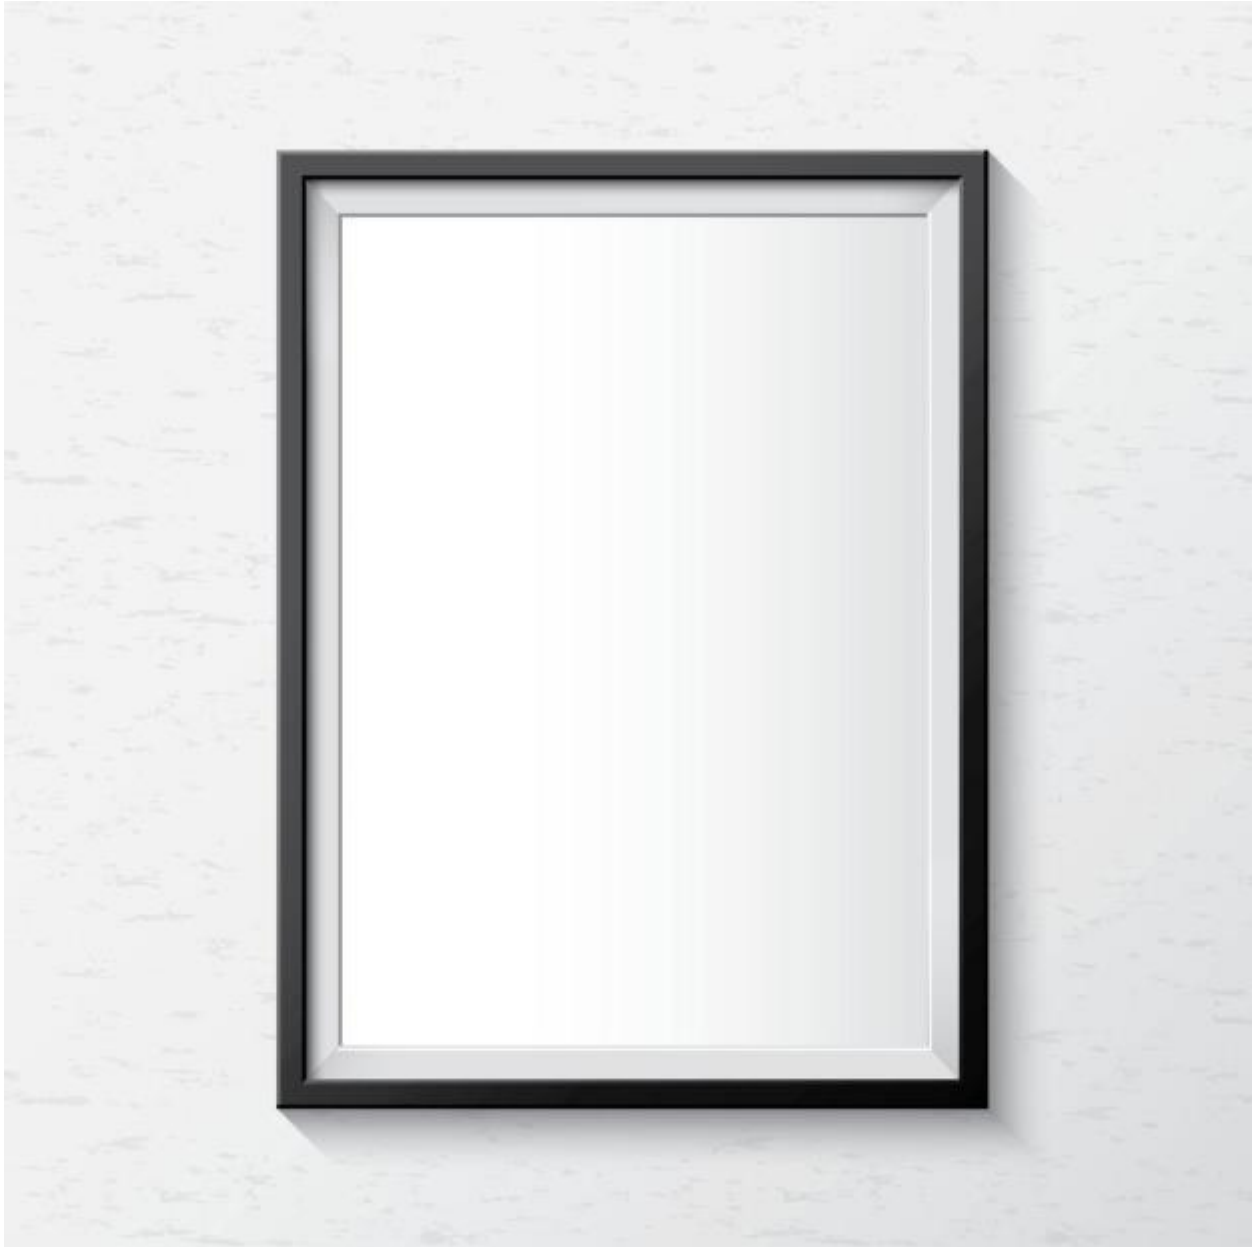

Please don't hesitate to reach out if you have any questions or concerns.

With Warm Regards,

Michelle Padura

## Student Attendance During eLearning

"Attendance during eLearning is a new and developing process. Teachers will record student attendance in Pinnacle. Students will be counted in attendance in the learning environment during their scheduled class time. Teachers should be flexible and consider any extenuating circumstances of individual students and may consider other evidence of attendance in these individual cases. Students will be counted as absent when no evidence of the student's online presence can be observed by the teacher during their scheduled class time.

Parents will be notified within 48 hours of a reported absence via a robocall. It is the parent's responsibility to communicate a reason for absence by phone or through the online form available on the traditional school's website (Contact > Report an Absence)."
