

SAT[®] School Day Is Coming to Your School

Thanks to special funding, the SAT[®] — the globally recognized college entrance exam — will be offered to you and other eligible students on a regular school day at your school.

The SAT is one of the best ways to show colleges your knowledge and skills, and now you have the chance to take it in a familiar setting.

The SAT is more than an admission test.

Your April 12 registration will be completed for you. Once your registration is complete, your counseling office can help you take advantage of these important SAT School Day benefits:

- Connecting with colleges and scholarship programs through the SAT Questionnaire and Student Search Service[®]
- Sending four free score reports to colleges or programs of your choice
- Personalized SAT practice available for free through Khan Academy[®]
- The new Daily Practice for the New SAT app

For more information, see your school counselor.
