## ABOUT NAF

The National Academy Foundation (NAF) educational design ignites students' passion for learning and gives businesses the opportunity to shape America's future workforce by transforming the learning environment to include STEM infused industry-specific curricula and work-based learning experiences, including internships.

Since 1982, NAF has been partnering with existing high schools in high-need communities to enhance school systems at a low cost by implementing NAF academies – small learning communities within traditional high schools.

In 2016, NAF academies reported 96% of seniors graduated with 92% of graduates planned to go to college.
