**-STEM INFORMATION-**

Over the past 10 years, growth in STEM jobs was 3x as fast as growth in non-STEM jobs. STEM occupations are projected to grow by 17% through 2018, compared to 9.8% growth for non-STEM occupations. STEM workers also command higher wages, earning 26% more than their non-STEM counterparts. In addition, STEM workers are also less likely to experience joblessness than their non-STEM counterparts, and if they do experience joblessness, they are quicker to find a new job than a non-STEM professional.
