

November Happy Thanksgiving!

Colbert Museum Magnet STEM News

Investigate * Understand * Transform

STEM Education Facts: The US ranked 28th worldwide in Math and 24th in Science. Workers in STEM fields earn 26% more than their counterparts and the job growth rate for STEM-related jobs is almost double that of non-stem occupations. It's easy to see that STEM education is essential for our future economy not to mention to our kids' future

Why is STEM Education so important? STEM is an acronym for Science, Technology, Engineering and Math. Our students are graduating without enough knowledge in these very important content areas.

Grant Recipients: Mrs. Silk, Mr. Kohnke and Ms. Rasner were all awarded Educational Grants to help supplement our students' projects and activities.

****Upcoming Events & News from Colbert****

There will be an Aquarocket building contest for all Broward County elementary students on Saturday, November 8, 2014 at Broward College North campus in Coconut Creek. The rocket building will begin at 11:00am in the student union patio area. The rocket launch will begin at 1:00 pm. Mr. Kohnke, our Engineering Lab Teacher, will be working at this event so bring your families and go learn about Aeronautical Engineering!

In our Engineering Lab, Colbert students are learning about sound energy and how sound is made through vibrations. Grade 4 students are working on propeller energy activities while Grade 5 students are finishing their civil engineering balsawood bridge project.

Museum Magnet Night

Wednesday, December 10th 2014 at 5:30pm.
