

ATTEND TODAY, ACHIEVE TOMORROW

School attendance is essential to academic success, but too often students and parents don't realize how quickly absences-excused as well as unexcused- can add up to academic trouble. Chronic absence- missing 10% of the school year, or just 2-3 days every month, can translate into third graders unable to master reading, sixth graders failing courses and ninth graders dropping out of high school.

SEPTEMBER IS NATIONAL SCHOOL ATTENDANCE MONTH!

It starts with us. By maintaining a strong culture of attendance and working together, we can identify and break down the barriers to getting to school. This starts by helping everyone in our community recognize that they have a stake and a role in ensuring that students are in school on time every day so they can learn and grow to be successful.

Attendance Matters! You Matter!! So Rise and Shine-Get to School On Time!
