

Hollywood Hills Elementary

School Advisory Council

10/13/20

Anita O’Sullivan—Chair

Meeting called to order at 2:35 pm.

Attendance: Anita O’Sullivan, Karen Dallas, Laura Saef, Allison Stettner, Mrs. Rivera

Welcome to our SAC meeting

Mrs. O’Sullivan

SAC nominations and positions

WE are still looking for a business representative for SAC.

SAC/SAF minutes (motion for approval)

Approve the minutes next we meet. Send via email. “I approve the minutes.”

Classroom and Hybrid due to COVID-19

Mrs. Rivera

Parent input—principal’s update

We are trying to hire kindergarten, first grade and third grade teachers. Primary car pool is now done by 2:30. As of last Friday, October 9th, we transitioned to our hybrid model, opening the school building to those who selected to return to school. Teachers will conduct virtual meetings with parents and parent conferences. For the foreseeable future, this is the way it will be. Everything is day to day, we must be flexible. About

290 student's families indicated they would want to come out of 750. The limit is 12 students per class. Mostly everyone is using Teams and Canvas and it's working out well. Today was the first day for 3rd through 5th grade.

School Updates

Title I

Mrs. Pacheco

School updates Literacy, Specials and Science Mrs. Dallas and Dr. Saef

Literacy: The due date for BAS is coming up, they are due November 13th. Teachers are continuing to BAS students until that time.

Special/Science update: Specials are traveling to the classrooms. Everyone is still receiving specials virtually. Everything the kids are learning now about germs and no touching/atmosphere, call to attention that this is all science. We learn as we go.

We were the number one school in the nation with the pledges for adopt a polar bear, cooltheEarth.org. That's why we got to adopt a polar bear. Dr. Saef will be adding to Canvas.

Schoolwide Behavior Plan

Mrs. Rivera

Schoolwide positive behavior plan was sent to the staff. It is on the OneDrive. Same as the year prior. Begin the behavioral lesson plans now that students are in the building.

Safety—Drills with social distancing not the best option. Email forthcoming. Teachers will talk the children through a code red. May send them to the safe spot—demo this to the students on the computer too so they know what is expected of them. Teacher's responsible for training them on what to do in the classroom. This will be our lockdown drill for the month. Monthly incentives will be discussed with the teachers now that we are back.
