- Mr. Fossas-Principal's Update: Two thing most important things to Discuss: School Choice Enhancement Program SMART Funds. How do we want this money to be spent- SAC is part of the committee that will decide how we will be using these funds. Mr. Fossas gave us a hand-out on what this means. We will add to the list the following: car barrier made of cement- A Buzzer for the front of the school with a camera, a one-way viewing tints on the doors to office classrooms etc., a coping machine that can be used when the one we have for teachers breaks down or is in need of service repair, a canopy covering for the third grade recess playground, remove the stoves and add cabinets to those classrooms with stoves in them, an additional science lab.
- Mr. Fossas- How we will vote on the A+ money- the Faculty and Staff- majority of the proposals that are made by staff and staff vote on the A+ money. In the past it was an even split for the money: One proposal is for the money to be an equal split for all-the second proposal will be for the school to purchase a front office type copier for teachers and then the rest of the money go to all school employees
- School Updates- Mrs. O'sullivan talked about how i-ready, Spelling/Vocabulary City, can be accessed at home for students to practice reading and math skills.
